SCIENTIFIC SUMMER RESEARCH PROGRAM FOR HIGH SCHOOL STUDENTS
Summer 2017

The Advanced Materials Research Institute (AMRI) at the University of New Orleans announces summer research positions in chemistry, physics, biochemistry, and materials science. These positions are open to students who will complete 9th, 10th, or 11th grade by June 2017. Participants will work in state of the art scientific research facilities alongside experienced research scientists. No prior experience is necessary. Full-time positions begin June 5 and end July 28, 2017, and are accompanied by a stipend of up to $2000 depending on availability of funding. Participants must be at least 15 years old by Jun 1, 2017.

Applications must be received by March 31, 2017. Notification of acceptance to the program will be made via e-mail.

To apply, submit the AMRI Outreach Program Application Form electronically. In addition, submit the following supporting documents:

- Three letters of recommendation (from teachers, guidance counselors, employers, etc.)
- An official high school transcript
- A personal statement indicating your career goals, and describing why you want to participate in this program (maximum (750 words):

Send supporting documents to:

Poncho de Leon  
Advanced Materials Research Institute, SC 2048  
University of New Orleans  
2000 Lakeshore Drive  
New Orleans, LA 70148

All application materials must be received by 4:00 PM on March 31, 2017.

For further information, contact AMRI at (504) 280-3258 or amri@uno.edu.

Application materials available at:

http://www.uno.edu/amri/research-program-high-school-students-teachers.aspx

All application forms should be submitted electronically.

The University of New Orleans is an Equal Opportunity/Affirmative Action Employer. Applications from women and minorities are encouraged.
