

The University of New Orleans Center for Hazards Assessment, Response & Technology (UNO-CHART)

Executive Program in Resilience and Risk Management

About this Program

UNO-CHART is an applied social science hazards research center that assists Louisiana residents, local and state officials, and communities in understanding and reducing risk to hazards. UNO-CHART's Executives Program offers regional workshops by nationally recognized experts that focus on decision-making dilemmas faced by officials. The Program enhances the ability of our leaders to make strategic decisions based on proven principles of resilience. Each workshop uses case studies to provide officials the opportunity to learn from others' experiences around disasters as well as networking opportunities.

Attendees will:

- Interact with experts who have had real-world experiences
- Improve their understanding of the complex and often confusing legal aspects of risk management
- Develop a better understanding of the forces that impact your community—forces you may not have considered

Date: May 9, 2014

Time: 10:00am-1:00pm

Address: Courtyard by Marriott
3830 Alexandria Mall Drive
Alexandria, LA 71301
