Market Trends Analysis
River Parishes
(St. John the Baptist, St. James, St. Charles)

BY: HENRY "HANK" TATJE, MAI
VALBRIDGE PROPERTY ADVISORS | ARGOTE, DERBES, GRAHAM, SHUFFIELD AND TATJE, INC.

2015 Highlights

- Growth and expansion of existing industries along the Mississippi River
  - Valero Refining
  - Marathon Oil
  - Entergy
  - Zen-Noh Grain
- Steady demand for (several companies still in market looking to acquire sites) and purchases of large industrial sites along the Mississippi River for new industrial plant development
  - Eurochem – fertilizers
  - South Louisiana Methanol – Methanol
  - Gavilon – Grain
  - Pin Oak – Tank Farm

2015 Highlights

- Limited supply of existing warehouse space is almost at full occupancy
- Strong employment base and job growth
- Recovery of the local housing markets

Expectations for 2016

- Softening of demand for vacant riverfront industrial sites
  - Low cost of oil may negate the once large competitive advantage of low natural gas prices
  - Supply of sites with ease of permitting and deep water marine access is fixed and becoming more limited
- Gradual construction of new industrial plants on sites purchased over the past 1 to 5 years
- Increased employment opportunities at industrial plants and related service industries
- Development and construction of a variety of new warehouse properties to fill the gap between increasing demand and limited supply

Expectations for 2016

- More rapid population growth
  - Much more affordable housing stock than that found in New Orleans and Baton Rouge
  - Influx of skilled workers who have lost jobs in the oil patch looking for employment along the river
- Continued recovery of housing markets
