

MINORITY EDUCATION THROUGH TRAVELING AND LEARNING IN THE SCIENCES (METALS)

“Montana Dinosaur Trail Summer Field Trip”

JUNE 20 - 30 2015

GEOSCIENCE FIELD TRIP TO MONTANA

With the University of New Orleans Department of Earth and Environmental Sciences

OPEN TO MINORITY STUDENTS ENTERING GRADES 11 AND 12

- ✓ *Are you fascinated by the planet Earth? Do you frequently wonder about things like fossils and ways in which scientists learn about how the Earth has changed over time?*
- ✓ *Are you a budding Earth scientist? Always wanted to be a paleontologist?*
- ✓ *Do you like to travel, spend time outdoors and learn about the natural world and how it works?*

If “yes” is your answer to the above questions, you could be chosen to join a group of five students to travel to Montana this June! We are looking for students who love science and are particularly interested in Earth Science.

The itinerary will include:

- ✓ A day in Yellowstone National Park exploring the geothermal features;
- ✓ A trip near to Bozeman, MT Museum of the Rockies
- ✓ Visit the Great Falls of the Missouri River
- ✓ Visit the Montana Dinosaur Trail and collect fossils in the late Cretaceous Judith River Formation
- ✓ Explore several dinosaur fossil sites and ponder the demise of the dinosaur

If this sounds like a trip you would enjoy, please contact Ms. Dinah Maygarden at the University of New Orleans Department of Earth and Environmental Sciences: dmaygard@uno.edu or 504-280-1374 for more details and to obtain an application form.

Do not Delay – Apply Immediately! Interviews will be conducted during the week of March 16. Final deadline is April 1. There are limited spaces available!
