About the ProQuest Author Agreement form

All doctoral students pay a $45 dissertation microfilming fee at the time that they pay their Graduation Fees. This fee goes to ProQuest Information and Learning (PQIL), a corporation that will microfilm and archive the dissertation as well as assign it a unique ISBN and create a bibliographic record for distribution to resources such as OCLC, Silver Platter, STN and Dialog.

In addition to payment of the fee, PQIL requires students to complete an Author Agreement form. The University requires that students complete pages 4 & 5, along with a copy of the dissertation title page and abstract and turn them in to the Graduate School.

The form requires students' selection of either the Open Access or Traditional Publishing options. These access levels pertain only to how users of ProQuest Dissertations access your manuscript. There is no relationship between the access level that you designate for ProQuest and the one you select when you sign the Thesis & Dissertation Approval form UNO. That form refers to the way that users access your document in the Thesis & Dissertation Collection in ScholarWorks.

Open Access

There is an additional $120 fee for the Open Access option.

Traditional

The University will cover the $25 fee for the Traditional option from the $45 you pay for dissertation processing.

Copyright

This is an OPTIONAL service provided by ProQuest and is not required by the University. Students who choose this option will be required to provide a money order for $55 along with their Author Agreement Form.

The Graduate School will forward the form and the electronic manuscript to PQIL for processing after the official graduation date. PQIL suggests that authors should allow up to 16 weeks between receipt of the form and release of the dissertation.

Please note: Although the Graduate School collects the fees and agreement forms for distribution, PQIL is an agency independent of the University of New Orleans. Any agreement between students and PQIL for services such as copyright registration, or discounted copies of your dissertation, in addition to the decision on options of access are also independent of UNO. Students are encouraged to make copies of the Author Agreement form for their records before turning them in to the Graduate School office.

Students who may decide to opt out of this service must complete a waiver form in the Graduate School office. The microfilming fee will not be refunded.
FORMS & INSTRUCTIONS for FTP or CD Submission of your Doctoral Dissertation or Master’s Thesis

Important Notes

• If you are reading this, your institution does NOT participate in our online submission service. That means you will provide your submission package to your graduate school or other designated office, and they will deliver it on to us.

• Your university and/or library may have specific policies regarding dissemination of, and access to your dissertation. You should understand your institution’s policies clearly before you complete the ProQuest forms and submit your dissertation.

• You own and retain copyright to your dissertation. ProQuest only acquires a non-exclusive right to distribute your work according to options you choose.

• Most universities hold all submitted dissertations and theses until the end of the semester or quarter, then deliver them to us all at once. Once your manuscript actually arrives at ProQuest, another 6 to 10 weeks are required for processing.

• You can increase the chances of a speedy publishing process by following all instructions, guidelines, and requirements precisely. Use the Submission Checklist. And if you have any questions, call our Author Relations Team at (800) 521-0600 ext. 7-7020.

ProQuest Publishing Agreement

Read and understand the ProQuest Publishing Agreement. This agreement grants ProQuest the right to reproduce and disseminate your work according to the choices you make. This is a non-exclusive right; you may grant others the right to use your dissertation or thesis as well. You retain your copyright.

Choose your publishing option, Open Access Publishing PLUS or Traditional Publishing.

Select any necessary embargoes and restrictions. Note: your institution may have explicit policies regarding embargoes and restrictions, dissemination and access. Check with your graduate school or its equivalent to be sure you comply with institutional policies.

Sign the ProQuest Publishing Agreement. Publication of your work may be delayed or impossible if your signature is missing.

Submission Form

Personal information

We require a limited amount of personal information to process your submission and provide records to your institution. Provide your name exactly as it appears on the title page of your manuscript. We request your Country of Citizenship because libraries and researchers are often interested in searching for all dissertations published by authors of a given nation or region. We use your personal information solely for publishing and dissemination purposes, and do not sell or supply your personal information to any third party.

Degree & Dissertation or Thesis Information

We use this information to create the bibliographic data that establishes your dissertation or thesis in the primary literature. It is important that this information is accurate and corresponds precisely with the information in your manuscript. Discrepancies between the data you provide in this form and your manuscript can delay publication of your work and/or make it difficult for other researchers to discover your work. Please use full and official names when completing the information about your institution and your advisor and committee members.

Title

In databases and indices, your title will appear in sentence case regardless of the conventions of your discipline; e.g., “The long and short of it: a sample title.” Whenever possible, use full proper names of people, organisms, places, etc. For example: “Samuel Clemens” not “S. Clemens”; Hyla arenicolor, not H. arenicolor. Try to spell out abbreviations for specialized vocabulary; e.g., “Triassic” rather than “Tr.” Use word substitutes for formulas, symbols, superscripts, subscripts, Greek characters, etc. For example, use “potassium”, not “K”; “first”, not “1st”; “delta”, not “Δ”. Be sure to include all appropriate accents and diacritical marks.

Subject Categories

The first (primary) subject category that you enter is the one under which your dissertation or thesis will occur in our citation and abstract indices. Using Guide 2: ProQuest Subject Categories (attached), choose the category that most closely corresponds with the field in which you did your graduate research. You may add one or two more secondary subject categories; these will be associated with your work and may increase its exposure to search engines.

Keywords

Adding good keywords is another way to increase the chances that your work will be discovered. For example, geographic locations or specialized terms that do not occur in your title or abstract can increase exposure of your work.

Contact Information

Provide a future mailing address and telephone numbers. If there is an issue with your submission and we are not able to reach you, release of your dissertation or thesis and production of any print copies you order will be substantially delayed. Provide a permanent email address (e.g. a hotmail-type web mail address).

Additional Materials

Any necessary co-authorship and/or copyright permissions. If you share authorship with anyone else for any part of your dissertation or thesis, you need to acquire his or her permission to include that content. If any content in your manuscript, including appendices, is already under another copyright, you need to acquire permission from the copyright holder to use that content. All such permissions must accompany your submission. Go online for more information and a sample permission letter: www.proquest.com/products-services/dissertations/authors.html.
ProQuest may elect not to distribute your dissertation or theses if, in its reasonable judgment, it believes all necessary rights of third parties have not been secured.

This Agreement is between the author (Author) and ProQuest LLC, through its ProQuest Dissertation Publishing business (formerly ProQuest/UMI). Under this Agreement, Author grants ProQuest certain rights to preserve, archive and publish the dissertation or thesis (the Work), abstract, and index terms provided by Author to ProQuest.

Section I. License for Inclusion of the Work in ProQuest Publishing Program

Grant of Rights. Author hereby grants to ProQuest the non-exclusive, worldwide right to reproduce, distribute, display and transmit the Work (in whole or in part) in such tangible and electronic formats as may be in existence now or developed in the future. Author further grants to ProQuest the right to include the abstract, bibliography and other metadata in the ProQuest Dissertations & Theses database (PQDT) and in ProQuest Dissertation Abstracts International and any successor or related index and/or finding services/dissertations/theses. Author must work directly with Author's degree granting institution to ensure application of any restrictions requested after submission process, according to the Instructions accompanying this agreement.

ProQuest Publishing Program - Election and Elements. The rights granted above shall be exercised according to the publishing option selected by Author in Section III, Author Options, and subject to the following additional Publishing Program requirements:

- Distribution of the Work. Except as restricted by Author in the publishing option selected, the rights granted by Author automatically include (1) the right to allow sale and distribution of the Work, in whole or in part, by ProQuest and its sales agents and distributors and (2) the right to make the Abstract, bibliographic data and any meta data associated with the Work available to search engines and harvesters.

- Restrictions. ProQuest will use commercially reasonable efforts to restrict the distribution of the Work as provided under the publishing option selected by Author or as later elected by Author through direct contact with ProQuest. Such election is subject to Author's Degree Granting Institution Directives (see below). With respect to restrictions requested after submission of the Work, Author acknowledges that ProQuest cannot recall or amend previously distributed versions of the Work.

- Removal of Work from the Program. ProQuest may elect not to distribute the Work if it believes that all necessary rights of third parties have not been secured. Refer to the website www.proquest.com/products-services/dissertations/ for information about copyright and your dissertation or thesis. If Author's degree is rescinded, and/or the degree-granting institution so directs, ProQuest will expunge the Work from its publishing program in accordance with its then current publishing policies.

- Degree Granting Institution Directives. Author is solely responsible for any conflict between policies and directions of Author’s degree-granting institution, Author’s choice of publishing model, and/or any restriction Author places on the use of the Work. For the avoidance of doubt, ProQuest is not responsible for access to the Work that is provided by Author’s degree-granting institution through its library or institutional repository. Author must work directly with Author’s degree granting institution to ensure application of any restrictions to access relating to the Work by Author’s degree granting institution.

Copyright and Deposit with the Library of Congress. At Author’s option and upon payment of the applicable fee, ProQuest will submit an application for registration of Author’s copyright in the Work in Author's name. In addition, regardless of whether copyright registration of the Work is sought, ProQuest may make a copy of the Work available to the Library of Congress in digital, microform or other format as required by the Library of Congress.

Publishing Fees and Royalties. Author shall remit the publishing fees and the optional copyright registration fees as appropriate for the publishing option chosen by Author, and as specified by Author’s degree-granting institution. Except as provided under the Traditional Publishing option, no royalties shall be due from ProQuest to Author.

Delivery of the Work. Author shall provide to ProQuest the Work and all necessary supporting documents during the online submission process, according to the Instructions accompanying this agreement.

Rights Verification. Author represents and warrants that Author is the copyright holder of the Work and has obtained all necessary rights to permit ProQuest to reproduce and distribute third party materials contained in any part of the Work, including all necessary licenses for any non-public, third party software necessary to access, display, and run or print the Work. Author is solely responsible and will indemnify ProQuest for any third party claims related to the Work as submitted for publication.

Section II-A. Rights pursuant to Traditional Publishing

Author’s election of Traditional as the Type of Publishing confirms Author’s choice to have ProQuest publish the Work according to the Traditional Publishing option described below.

Traditional Publishing. ProQuest may exercise the rights granted under Section I above including through the sale of individual copies of the Work in tangible or electronic media and/or as part of electronic database and reference products or services.

Publishing Fees and Royalties. Author's payment of the dissertation or thesis publishing fee is a one-time, up-front fee. Author's institution may assess additional fees to be collected along with the publishing fee. ProQuest will pay royalties of 10% of its net revenue from sales of the Work, conditioned on Author maintaining a current address on record with ProQuest. Royalties will be paid when accrued earned royalties reach $25.00. If, after 25 years, earned royalties do not accrue to at least $25.00, ProQuest’s royalty payment obligation will cease.
Section II-B. Rights pursuant to Open Access Publishing

Author’s election of Open Access as the Type of Publishing confirms Author’s choice to have ProQuest publish the Work according to the Open Access Publishing option described here. Open Access Publishing: In addition to the rights granted under Section I of this ProQuest Publishing Agreement, ProQuest may reproduce, distribute, display and transmit the Work in electronic format in the ProQuest Dissertations & Theses database, where it may be made available for free download. A subset of the ProQuest Dissertations & Theses database, currently known as PQDT Open, may be accessed by the academic community as well as through major search engines and open access harvesters.
