• Send an evaluation to everyone participating in rush and all of the chapters to see if they liked the rush schedule used and if they have any changes they would like to see.
• Try to move rush for next year earlier. One of the problems was that PanHellenic would not be able to attend our bid day parties, but we can see if they would move their recruitment up as well.
• IFC Athletics have been posted and will be attached to same e-mail that the minutes are attached to.
• IFC chapters should try to open their events more with NPHC. Sometimes it seems like its just IFC and PanHellenic events.
• Make sure that your chapter forms are up to date and are submitted.
• Leadership Summit will take place on October 14. Make sure that 2 members for your organization are in attendance.
• We should try to elect our new executive board by November 10 (or at latest November 17). We will try to have a mock meeting for November 24.
• An option that came up is having delegates part of the executive team.
• Another option that came up is having presidents required to come to IFC meeting. That might be a little difficult to do however.
• Chapters should look over recruitment rules and pose changes to them.
• A feedback that was heard was that it seems like some chapters have way too many events for Privateer Plunge and an idea that came up was to limit the amount of Privateer Plunge events.
