First Year Experience

Our First Year Experience (FYE) staff is here to help first-year students at UNO! Transitioning to college can be exciting, stressful, challenging, and fun- and the first year is often the hardest. Their job is to make sure that your transition is as easy as possible.

In addition to a variety of programming and services, FYE also provides Success Coaching. Students will receive one-on-one attention twice per month from a coach who is committed to student development and success. Coaches work closely with academic advisors and other resources across campus to support students in achieving their personal, academic, and other professional goals.

For more information, please visit fye.uno.edu.
