ARTS, HUMANITIES AND INTERNATIONAL

• National Archives and Records Administration (NARA): Advisory Committee on the Presidential Library-Foundation Partnerships

Notice announcing a meeting to discuss the Presidential Library program and topics related to the public-private partnership between Presidential Libraries and Presidential Foundations. The meeting will be held October 23, 2014, from 10:00 am to 1:00 pm, ET, National Archives Building at 700 Pennsylvania Avenue NW, Washington, DC, Room 105.

Links: Federal Register

• U.S. Department of State (DOS), U.S. Mission to India: U.S. Consulate General Kolkata TIP Conclave 4 Conference

Notice seeking applications to host the fourth "Trafficking in Persons Conclave" in Ranchi, Jharkhand, to reinforce its commitment to combat human trafficking. Applications are due October 14, 2014. Approximately $50,000 is available to support one award for one year.

Links: Grants.gov

• U.S. Department of the Interior (DOI); National Park Service (NPS): 2015 Preservation Technology and Training (PTT) Grants

Notice seeking innovative proposals that advance the application of science and technology to historic preservation in the following areas: Planning for and responding to Climate Change and the impacts of natural and man-made disasters on cultural resources; 3D documentation and visualization techniques for historic sites, landscapes, buildings and objects; Mobile application development for cultural resource detection, documentation, management, etc.; Development and testing of protective coatings for cultural materials. NCPTT does not fund "Bricks and Mortar" grants. Proposals are due November 5, 2014. Applicants are encouraged to contact NCPTT to discuss their ideas prior to submitting a proposal. Approximately up to $40,000 is available in funding for each award.

EDUCATION and ECONOMIC AND COMMUNITY DEVELOPMENT

• General Services Administration (GSA): Indoor Environment and Stress Study

Notice seeking proposals for a demonstration project examining the relationship between indoor environmental quality and physiological stress outcomes in selected GSA building sites. Proposals are due September 22, 2014.

Links: FBO notice

• U.S. Department of Commerce (DOC); International Trade Administration (ITA): President's Advisory Council on Doing Business in Africa

Notice seeking request for nominations to serve on a new presidential advisory council on strengthening commercial engagement between the United States and Africa. All applications must be received by the Office of Advisory Committees and Industry Outreach by 5:00 p.m. ET on Tuesday, September 30, 2014.

Links: Federal Register

• U.S. Department of Labor (DOL); Veterans’ Employment and Training Service (VETS): Advisory Committee on Veterans’ Employment, Training and Employer Outreach (ACVETEO): Meeting

Notice announcing a meeting to discuss VETS core programs and services regarding efforts that assist veterans seeking employment and raise employer awareness as to the advantages of hiring veterans. The meeting will be held October 2, 2014 from 9:00 am to 5:00 pm, ET, at U.S. Department of Labor, Frances Perkins Building, Suite C-5320, Room 6, 200 Constitution Avenue NW, Washington, DC. To attend, register with the contact by September 25, 2014 using the subject line "October 2 2014 ACVETEO MEETING."

Links: Federal Register

• U.S. Department of the Interior (DOI); U.S. Fish and Wildlife (UFW): NAWCA Small Grants

Notice seeking applications to support public-private partnerships carrying out projects in the United States that further the goals of the North American Wetlands Conservation Act that involve long-term protection, restoration, and/or enhancement of wetlands and associated uplands habitats for the benefit of all wetlands-associated migratory birds. Applications are due on November 7, 2014. Approximately $5 million is available contingent on the quality and number of proposals received.

Links: Solicitation, Grants.gov
• U.S. Department of the Interior (DOI); U.S. Fish and Wildlife Service (FWS): Neotropical Migratory Bird Conservation Act grants

Notice seeking applications to support projects that promote the conservation of neotropical migratory birds and their habitats in the United States, Canada, Latin America and the Caribbean. Two types of grants are available: Core Program grants benefitting any eligible tropical bird; and Impact Program grants benefitting specific targeted bird species identified in the solicitation. Applications not accepted for the Impact Program will automatically be considered for the Core Program. Applications are due November 20, 2014. Applicants may request up to $100,000 to support one-year projects. Grant duration can be either one or two years.

HEALTH and MENTAL HEALTH

• U.S. Department of Defense (DoD): DoD Peer Reviewed Alzheimer’s Quality of Life Research Award

Notice seeking applications to reduce the burden on caregivers and individuals affected by the common symptoms of both Traumatic Brain Injury and Alzheimer's Disease, especially in the military community. Pre-Applications are required by October 16, 2014. Applications are due January 15, 2015. Approximately $2.6 million is available to support four awards.

Links: Grants.gov

• U.S. Department of Defense (DoD): Peer Reviewed Alzheimer's Military Risk Factors Research Award

Notice seeking applications to facilitate high-impact, systematic, population-based research investigating the association between Traumatic Brain Injury and the subsequent development of Alzheimer’s Disease. Pre-Applications are required by October 16, 2014. Applications are due January 14, 2015. Approximately $5.5 million is available to support one award.

Links: Grants.gov

• U.S. Department of Defense (DoD): Peer Reviewed Alzheimer’s Convergence Science Research Award

Notice seeking applications to support efforts to generate research resources and tools, or novel research efforts for professionals and practitioners in health sciences. Pre-Applications are required by October 16, 2014. Applications are due January 14, 2015. Approximately $2.6 million is available to support four awards.

Links: Grants.gov

• U.S. Department of Health and Human Services (HHS); Centers for Disease Control and Prevention (CDC): Expansion and Strengthening of Clinic-Based HIV Related Services in Haiti under the President’s Emergency Plan for AIDS Relief (PEPFAR)

Notice seeking applications to build on existing PEPFAR-supported HIV services as well as CDC-supported maternal and child health programs in Haiti and provide support to local indigenous institutions to sustain the delivering of high quality integrated clinical services in a network of service provision in the Northeast and West departments of Haiti. Applications are due November 1, 2014. Approximately $1.6 million is available to support one award for five years.

Links: Grants.gov

• U.S. Department of Health and Human Services (HHS); Centers for Disease Control and Prevention (CDC): Strengthening the Capacity of Faith-based organizations (FBOs) and Faith-Based Health Systems to Sustain the Role of FBOs in a Coordinated Response to HIV/AIDS

Notice seeking applications to conduct assessments of faith-based health systems and networks to strengthen sustainable, evidence-based HIV prevention, treatment, care and support services. Applications are due October 24, 2014. Approximately $2 million is available to support one award for five years.

Links: Grants.gov
• U.S. Department of Health and Human Services (HHS); Centers for Disease Control and Prevention (CDC): Increasing Access TO HIV Counseling and Testing Services for High-Risk Populations, and Improving Linkage, Engagement and Retention in Care and Support Services in the Federal Democratic Republic of Ethiopia under the President's Emergency Plan for AIDS R

Notice seeking applications to increase the identification of HIV positive persons through targeted HIV counseling and testing (HCT), assist in spouse and child disclosure of HIV status, and improve linkage and enrollment of all newly identified HIV clients to HIV/AIDS care, treatment and support services. Applications are due October 16, 2014. Approximately $1.3 million is available to support one award for five years.

Links: Grants.gov

• U.S. Department of Health and Human Services (HHS); Centers for Disease Control and Prevention (CDC): Technical Assistance to Provide High-Quality Voluntary Medical Male Circumcision (VMMC) Services to Programs Supported by the President's Emergency Plan for AIDS Relief (PEPFAR)

Notice seeking applications to ensure that Voluntary Medical Male Circumcision (VMMC) services meet the accepted global standards for safety and quality by providing technical assistance and support to PEPFAR country programs, Ministries of Health and Implementing Partners to strengthen the capacity and quality of VMMC services. Applications are due October 22, 2014. Approximately $1 million each year is available to support one to two awards over five years.

Links: Grants.gov

• U.S. Department of Health and Human Services (HHS); Centers for Disease Control and Prevention (CDC): Strengthening the Capacity of the Republican AIDS Center to Implement HIV Program in the Republic of Tajikistan under the President's Emergency Plan for AIDS Relief (PEPFAR)

Notice seeking applications to increase coverage of quality comprehensive HIV prevention programs and improve access to the medical services for key populations, including people who inject drugs and sex workers. Applications are due on October 16, 2014. Approximately $400,000 is available to support one award over a five year period.

Links: Grants.gov

• U.S. Department of Health and Human Services (HHS); Centers for Disease Control and Prevention (CDC): Supporting HIV and Tuberculosis Response in the Kingdom of Lesotho through District-based Comprehensive Prevention, Care and Treatment Programs and Health Systems Strengthening under the President’s Emergency Plan for AIDS Relief (PEPFAR)

Notice seeking applications to utilize a district model approach to scale-up HIV prevention and treatment interventions to create an AIDS free generation in four districts in Lesotho. Applications are due October 24, 2014. Approximately $5 million is available to support one award over five years.

Links: Grants.gov

• U.S. Department of Health and Human Services (HHS); Centers for Disease Control and Prevention (CDC): Technical Assistance for Laboratory Systems Strengthening in Mozambique under the President's Emergency Plan for AIDS Relief (PEPFAR)

Notice seeking applications to build on current U.S. Government efforts in the development of robust laboratory systems and networks to strengthen human resource capacity to perform clinical laboratory tests in support of HIV care and treatment. Applications are due October 27, 2014. Approximately $1.5 million is available to support one award over a five year period.

Links: Grants.gov

• U.S. Department of Health and Human Services (HHS); Centers for Disease Control and Prevention (CDC): Technical Assistance to Implement Quality Management Systems (QMS) in India’s National AIDS Control Program (NACP) Laboratories, Strengthening its Laboratory Testing Network for HIV and Related Diseases under the President's Emergency Plan for AIDS Relief

Notice seeking applications to achieve primary prevention of HIV infection through activities such as expanding confidential counseling and testing programs linked with evidence based behavioral change and building programs to reduce mother-to-child transmission. Applications are due on October 24, 2014. Approximately $1.5 million is available to support one award over a five year period.

Links: Grants.gov

• U.S. Department of Health and Human Services (HHS); Centers for Disease Control and Prevention (CDC): Strengthening Local Capacity to develop and Implement Open Source Blood Safety and Laboratory Information Systems in Resource-limited Countries Supported by the President's Emergency Plan for AIDS Relief (PEPFAR)

Notice seeking applications to lower the cost of accessing and sustaining health information systems in at least 3 PEPFAR-supported countries in Africa that have historically been priced out of this essential service. Applications are due October 20, 2014. Approximately $1 million is available to support one award.

Links: Grants.gov
• U.S. Department of Health and Human Services (HHS); Centers for Disease Control and Prevention (CDC): Implementation of Programs for the Prevention, Care and Treatment of HIV/AIDS in Côte d’Ivoire under the President’s Emergency Plan for AIDS Relief (PEPFAR)

Notice seeking applications to increase the capacity and sustainability of the response to the HIV/AIDS epidemic in Côte d’Ivoire by initially providing support for HIV service delivery and ultimately providing technical assistance (TA) to indigenous Ivorian organizations and the national MSLS to sustain and expand comprehensive HIV prevention, care and treatment programs. Applications are due October 18, 2014. Approximately $7 million is available to support one award.

Links: Grants.gov

• U.S. Department of Health and Human Services (HHS); Centers for Disease Control and Prevention (CDC): Strengthening HIV Strategic Information Activities in the Republic of Senegal under the President’s Emergency Plan for AIDS Relief (PEPFAR)

Notice seeking applications to strengthen HIV strategic information (SI) in Senegal through design and implementation of a national HIV case reporting system and other surveillance activities in support of the national Strategic Information (SI) program. Applications are due October 19, 2014. Approximately $350,000 is available to support one award.

Links: Grants.gov

• U.S. Department of Health and Human Services (HHS); Centers for Disease Control and Prevention (CDC); National Institute for Occupational Safety and Health (NIOSH): Request for Nominations of Candidates to Serve on the Board of Scientific Counselors (BSC), National Institute for Occupational Safety and Health (NIOSH)

Notice seeking nominations to serve up to four years on the NIOSH BSC, which advises the NIOSH Director on occupational safety and health research and prevention programs; standards of scientific excellence; current needs in the field of occupational safety and health; and the applicability and dissemination of research findings. Nominees are sought with expertise in fields related to occupational safety and health, such as occupational medicine, occupational nursing, industrial hygiene, occupational safety and health engineering, toxicology, chemistry, safety and health education, ergonomics, epidemiology, biostatistics, and psychology. Nomination materials must be postmarked by December 15, 2014, and sent to the contact.

Links: Federal Register

• U.S. Department of Health and Human Services (HHS); Health Resources and Services Administration (HRSA): National Technical Resource Center for Newborn Hearing Screening and Intervention

Notice seeking applications to provide, to state Early Hearing Detection and Intervention (EHDI) programs, training and technical assistance for planning, policy development, implementing innovations and quality improvement methodology to reduce the number of infants who do not receive timely and appropriate screening follow-up and coordinated interventions. Applications are due November 10, 2014. Approximately $1.2 million per year is available to support one award for a project lasting up to five years.

Links: Grants.gov

• U.S. Department of Health and Human Services (HHS); Health Resources and Services Administration (HRSA): Strengthen Evidence Base for Maternal and Child Health Programs

Notice seeking applications to provide support and resources to assist State Title V Maternal and Child Health programs in developing evidence-based or evidence-informed State Action Plans as well as in responding to the National Outcome Measures, National Performance Measures, State Performance Measures, and state-initiated Structural/Process Measures. Applications are due November 10, 2014. Approximately $550,000 is available to support one award for three years.

Links: Grants.gov

• U.S. Department of Health and Human Services (HHS); National Institutes of Health (NIH); Multiple Institutes: Global Brain and Nervous System Disorders Research Across the Lifespan (R21)

Notice seeking exploratory/developmental research grant applications, proposing the development of innovative, collaborative research projects on brain and other nervous system function and disorders throughout life, relevant to low- and middle-income countries (LMICs). Scientists in the United States (U.S.) or upper middle income countries (UMICs) are eligible to partner with scientists in LMIC institutions. Letters of intent are requested 30 days prior to the application due date. Applications are due January 5, 2015; January 5, 2016; and January 5, 2017. Program expires January 6, 2017.

Links: Solicitation, Grants.gov
Notice seeking applications for research and development of interventions to significantly improve medication adherence in individuals. Applications may target medication adherence in the context of treatment for a single illness or chronic condition (e.g., hypertension), to stave off a disease recurrence (e.g., cancer) or for multiple comorbid conditions (e.g., hypertension, diabetes, alcohol use disorders and HIV/AIDS). A well-articulated theoretical or conceptual framework is key for applications encouraged under this announcement. The first standard due date is February 16, 2015. Applications are due February 16, June 16, and October 16, annually. Program expires January 8, 2018.

Links: Solicitation, Grants.gov

Notice seeking applications for drug testing Research Programs focused on specific tumor types that are particularly relevant to pediatric oncology. Each application must propose only one testing Research Program from the following four types: Type A: Research Program for leukemia in vivo testing; Type B: Research Program for tumors of central nervous system (CNS) in vivo testing; Type C: Research Program for other (non-CNS) solid tumors testing in vivo; and Type D: Research Program for in vitro testing. Applicants may propose Research Programs of more than one type but only through separate applications for each. Letters of intent are requested by October 13, 2014. Applications are due November 13, 2014. Approximately $2.15 million is available to support five to six awards.

Links: Solicitation, Grants.gov

Notice seeking applications to fund a Coordinating Center that will be responsible for integrating the activities of the individual PPTC Research Programs to create a functional consortium for pediatric preclinical testing. Specifically, the PPTF-Coordinating Center will provide administrative coordination and infrastructure, data management and statistical support, as well as Consortium scientific coordination. Letters of intent are requested by October 13, 2014. Applications are due November 13, 2014. Approximately $550,000 is available to support one PPTC Coordinating Center award.

Links: Solicitation, Grants.gov

Notice announcing a partially open meeting of the National Advisory Eye Council to hear opening remarks from the NEI director, presentations by the staff, and discussions concerning institute programs. The open portion of the meeting will be held on October 9, 2014, from 8:30 am to 2:00 pm, ET, at NIH, Terrace Level Conference Room, 5635 Fishers Lane, Bethesda, MD. The meeting is open to the public, with attendance limited to space available. Those interested in filing written comments with the committee should notify the contact.

Links: Federal Register

Notice seeking applications to investigate mechanisms by which the gut microbiome modulates the development and function of brain circuits that subserve behavioral functions of direct relevance to the mission of the NIMH. Letters of intent are requested by October 25, 2014. Applications are due November 25, 2014. Approximately $1 million is available to support three to five awards.

Links: Solicitation, Grants.gov

Notice seeking applications from investigators who are interested in applying for access to non-renewable biosamples from one or more of the biosample collections from the NIH and its partnering institutions. Applications are due during the following intervals: November 13, 2014 - March 12, 2015; March 13 - July 12, 2015; and July 13 - November 12, 2015. The number of awards is contingent upon scientific merit and availability of biosample resources. No funds are associated with this award mechanism.

Links: Solicitation, Grants.gov

Notice seeking applications on epigenetics underlying aging as a risk factor for age-related diseases and degenerative conditions in humans. Letters of intent are requested by December 15, 2015. Applications are due January 15, 2016. Approximately $800,000 is available to support two awards for one year.

Links: Solicitation, Grants.gov
• U.S. Department of Health and Human Services (HHS); National Institutes of Health (NIH); National Institute on Alcohol Abuse and Alcoholism (NIAAA): Secondary Analyses of Existing Alcohol Epidemiology Data

Notice seeking investigator-initiated research grant applications to support the secondary analysis of existing data sets with the goal of enhancing our understanding of patterns of alcohol consumption and the epidemiology of alcohol-related problems. R01 applications are due October 24, 2014, then annually on February 5, June 5, and October 5. R21 and R03 applications are due November 25, 2014, then annually on February 16, June 16, and October 16. AIDS-related applications are due annually on January 7, May 7, and September 7. Solicitations expire September 8, 2017.

Links: R01 Solicitation, Grants.gov
      R21 Solicitation, Grants.gov
      R03 Solicitations, Grants.gov

• U.S. Department of Health and Human Services (HHS); National Institutes of Health (NIH); National Library of Medicine (NLM): NLM Grants for Scholarly Works in Biomedicine and Health (G13)

Notice seeking applications for support for preparation of book-length manuscripts and other scholarly works of value to U.S. health professionals, public health officials, biomedical researchers and historians of the health sciences. Letters of intent are requested and due 30 days prior to the application due date. Applications are due February 20, 2015, and February 22, 2016. Application budgets are limited to $50,000 per year in direct costs. Up to three awards are anticipated.

Links: Solicitation, Grants.gov

SCIENCE, TECHNOLOGY, ENGINEERING, and MATHEMATICS

• National Oceanic and Atmospheric Administration (NOAA): Sanctuary System Business Advisory Council: Public Meeting

Notice announcing a meeting of the Sanctuary System Business Advisory Council to provide an opportunity for council representatives to hear how national marine sanctuaries are connected to users, communities, corporations, and economies and the avenues being pursued to enhance these connections. The meeting will be held on September 24, 2014, from 9:00 am to 5:00 pm, ET, in the Knott Harbor View Room of the National Aquarium, 501 East Pratt Street, Baltimore, MD. An opportunity for public comment will be provided at 4:35 pm.

Links: Federal Register

• National Science Foundation (NSF): Sunshine Act Meetings; National Science Board

Notice of public teleconference of the Science and Engineering Indicators (SEI's) chair’s remarks, and discussion of the SEI "Digital Indicators" Project. The teleconference will be held on Friday, September 19, 2014 from 4:30 to 5:30 p.m. ET. Members of the public must contact the Board Office (call 703-292-7000 or send an email message to nationalsciencebrd@nsf.gov) at least 24 hours prior to the teleconference for the public listening number. Please refer to the National Science Board Web site www.nsf.gov/nsb for additional information and schedule updates.

Links: Federal Register

• Office of Science and Technology Policy (OSTP); National Nanotechnology Coordination Office: Nanoscale Science, Engineering, and Technology Subcommittee; Committee on Technology, National Science and Technology Council; Meeting

Notice announcing a meeting of the Nanoscale Science, Engineering, and Technology Subcommittee. The purpose of the meeting is to identify, discuss, and report the technical barriers preventing the production of carbon nanotube-based materials with electrical and mechanical properties approaching theoretical values, and to explore ways to overcome these barriers. The technical interchange meeting will be held Monday, September 15, 2014 from 8:00 a.m. until 5:15 p.m. at the National Aeronautics and Space Administration (NASA) Headquarters, 300 E Street Southwest, Washington, DC.

Links: Federal Register

• U.S. Department Interior (DOI); Fish and Wildlife Service (FWS): BDJV FY14 Competitive Grant Program

Notice seeking proposal addressing any aspect of black duck ecology and management, but proposals that address priority research needs including these three competing hypotheses 1. The black duck population is limited by density-dependent productivity based on the amount of available breeding habitat; 2. The black duck population is limited by density-dependent post-hunting season sea-sonal survival based on the amount of available non-breeding habitat; and 3. The black duck population is limited by density-dependent productivity based on the amount of available non-breeding habitat (i.e., cross-over hypothesis) will have a greater probability of funding. Successful multi-year projects will be funded in 1-year increments, subject to annual review, demonstration of suitable progress, and funds availability. Applications are due September 15, 2014. Cost sharing is encouraged.

Links: Grants.gov
• U.S. Department of Commerce (DOC); National Oceanic and Atmospheric Administration (NOAA); National Environmental Satellite, Data, and Information Service (NESDIS): Radio Occultation Request for Information

Notice seeking industry input to enhance NOAA's understanding of potential options for industry collaboration or commercial data buy to obtain Radio Occultation (RO) soundings. Responses are due September 29, 2014.

Links: FBO notice

• U.S. Department of Defense (DoD); Defense Advanced Research Projects Agency (DARPA): Simplifying Complexity in Scientific Discovery (SIMPLEX)

Notice seeking proposals in the area of mathematical systems of representation and analysis as applied to complex phenomena. Proposals are due on November 6, 2014.

Links: FBO notice

• U.S. Department of Defense (DOD); Defense Advanced Research Projects Agency (DARPA); Information Innovation Office (I2O): Space/Time Analysis for Cybersecurity (STAC)

Notice seeking applications to enable analysts to identify algorithmic resource usage vulnerabilities in software at levels of scale and speed great enough to support a methodical search for them in the software upon which the U.S. government, military, and economy depend. Proposed research should investigate innovative approaches that enable revolutionary advances in science, devices, or systems. Specifically excluded is research that primarily results in evolutionary improvements to the existing state of practice. Proposals are due October 28, 2014. The anticipated budget for the STAC program is $53M over 42 months. Eligibility is unrestricted.

Links: FBO notice, Grants.gov

• U.S. Department of Defense (DOD); Defense Advanced Research Projects Agency (DARPA); Microsystems Technology Office (MTO): Microsystems Technology Office (MTO) Office Wide BAA

Notice seeking abstracts, white papers, and proposals to develop high-risk, high-reward technologies that address technology needs in one or more areas identified by the MTO. See the solicitation for a complete list of suggested research areas. Abstract/White Papers and Proposals may be submitted on a rolling basis until September 9, 2016. Multiple awards of varying amounts are anticipated. Applicants are encouraged to submit abstracts in advance of full proposals.

Links: FBO notice, Grants.gov

• U.S. Department of Defense (DoD); Department of the Air Force: Aircraft Drag Reduction Program

Notice seeking applications to mature and transition technologies to reduce the fuel burn of legacy and future fleet aircraft by employing engineered surfaces, materials, and coatings. Applications are due October 27, 2014. Approximately $8.75 million is available to support one award.

Links: Grants.gov

• U.S. Department of Defense (DOD); Department of the Air Force (AF); Air Force Materiel Command: Mission Awareness for Mission Assurance (MAMA)

Notice seeking white papers for innovative technologies to enable effective cyber situational awareness (SA) during mission execution to achieve mission assurance for military operations. White papers are due November 1, 2014 for FY 15, June 1, 2015 for FY 16. Multiple awards of between $250,000 and $1.5 million will be made.

Links: FBO notice

• U.S. Department of Defense (DOD); Air Force Research Laboratory (AFRL): Sensing and Information Research Center for Understanding Systems (SIRCUS)

Notice seeking proposals focused on understanding performance of sensing and exploitation systems and has historically leveraged partnerships between university research, industry and government to help solve some of the Air Force’s current technology challenges as well developing innovative approaches for future Air Force technology. Proposals are due October 2, 2014. Approximately $22 million is available to support multiple awards.

Links: FBO notice

• U.S. Department of Defense (DoD); Department of the Army; Army Corps of Engineers: Historical Tidal Data Recovery and Analysis

Notice seeking applications to recover and analyze 19th and early 20th century tidal data. Applications are due on September 22, 2014. Approximately $243,000 is available for one award.

Links: Grants.gov
• U.S. Department of Energy (DOE); Office of Science: High Energy Physics Advisory Panel

Notice announcing a public meeting to provide advice and guidance on a continuing basis to the Department of Energy and the National Science Foundation on scientific priorities within the field of High Energy Physics research. The public meeting will be held on Monday, September 29, 2014, 8:30 a.m. to 6:00 p.m. ET; and Tuesday, September 30, 2014, 8:30 a.m. to 4:00 p.m. ET at the Gaithersburg Marriott Washingtonian Center, 9751 Washingtonian Blvd., Gaithersburg, MD.

Links: Federal Register

• U.S. Department of Energy (DOE); Office of Science (SC); Office of Biological and Environmental Research (BER): Novel in Situ Imaging and Measurement Technologies for Biological Systems Science

Notice seeking applications to develop novel imaging instrumentation and measurement technologies that support the integrative analysis of communication among subcellular compartments, between individual microbial cells and within multicellular communities/plant tissues. Multi-disciplinary and inter-institutional collaborations are strongly encouraged. Pre-Applications are required by October 15, 2014. Invited full applications are due December 18, 2014. Approximately $5 million is available to support four to six awards for projects lasting three years.

Links: Grants.gov

• U.S. Department of the Interior (DOI); U.S. Geological Survey (USGS): The Educational Component of the National Cooperative Geologic Mapping Program

Notice seeking proposals to train the next generation of geologic mappers. To do this NCGMP provides funds for graduate and undergraduate students in academic research projects that involve geologic mapping as a major component. Proposals are due November 5, 2014. U.S. accredited university Geoscience or related departments are eligible for EDMAP funds. The EDMAP program is designed to be carried out on a 1:1 Federal/University match.
