I. Call to Order
   a. The meeting was called to order at 4:40pm.

II. Roll Call
   a. Presiding Officer Reyes conducted roll call. With 18 of 31 senators present, quorum is met.
   b. Motion for Christopher to be Parliamentarian.
   c. Motion for Aucoin to be Parliamentarian.
      i. Christopher is to be Parliamentarian.

III. Approval of the Minutes
   a. Minutes are approved with 0 corrections.

IV. Communications and Announcement
   a. Senators
   b. Non-Senators

V. Presiding Officer Communications and Announcements
   a. I sent an e-mail late for business to be conducted this meeting. I apologize for that. I have legislation coming up written and sponsored by senators. It’s for the committee expansion act. It’s taking it from 5 to 7 people for committees. The reasoning is in the bill. I hope you read over it. I will pass it around. I want to ensure that this meeting will not be rush. I’m sorry for last meeting, but was for the circumstances of that meeting. I know you all received LeeAnne’s fact sheet for the procedures of the meeting. There are privileged motions and incidental motions. It’s on the back of the second page. To make it known to the senate, point of information is privileged, point of order is incidental. I feel that is the job of parliamentarian for point of order. LeeAnne emailed you that UNO faculty senate, faculty council, and staff council will like to invite you to a lunch on Friday October 24th at 11:00 in this room. It will be an open forum to ask questions. You will also be able to ask Fos and Lassen questions. They will have a presentation on the partnership and answer questions afterwards. I would like to request that you show up to next meeting dressed to impress so we can take pictures and put it on the SG website. We will revamp the SG website. Also, I spoke with Hollis and stated this in previous meetings: with the president’s absence, the senate can create committees. The committee will be formed soon.

VI. President Pro Tempore and Committee Reports
   a. President Pro Tempore
i. I would like to remind everyone that early voting is coming up on 21st - 28th. I am an intern under Landrieu although I am not trying to sway you either way. I would just like to get you to go out and vote. On the 25th we are looking for students to knock on dorm doors, just want students to get out and make their voice heard. We will be meeting at the quad then we will go out and knock on dorms. The locations for early voting are the city hall and Lake Vista Community Center from 8:00am- 6:30pm. Get your voice heard.

ii. St. Amant recognized as present. There are now 19 out of 31 senators present.

b. Committee Reports
i. DiMaggio: We were tabled the sexual assault bill. Due to Fall Break, we weren’t able to get much done. Schexnayder talked to UNOPD and got contact info for NOPD.
   1. Christopher: Did you inform the other members of your committee that you were having a committee meeting or only Schexnayder?
   2. DiMaggio: I think Schexnayder and Johnson.
   3. LaJana: Point of Information for SA committee. Amy King just came back from a weeklong conference for sexual violence on campus. She will have the most recent information.
   4. Christopher: Point of Inquiry. Can we get a list of senators on committees?
   5. Reyes: That will be addressed in the Secretary of State’s report.

VII. Executive Reports, Judicial Reports, Advisor Reports
a. President
b. Secretary of State
i. We are trying to have 2 retreats a semester. We are working on one either right before or after Christmas break. I am trying to get it all ironed out. As soon as I get that sorted out, I’ll have a date next meeting. The elections are coming up. The mandatory meeting is this Thursday at 12:30 pm. I will be getting a room. If can’t make it, e-mail me ahead of time and we can set up another day. All committees have 5 member spots available, and 1 is the chair. Two seats can be non-senators. Campus Beautification has 4 seats open. RAPP has the chair and 4 opening. SA only has 4 seats. Budget has 3 seats open. Look at article 4. In the senate there are 2 open seats in College of Education, 1 in IDS, 4 in COBA, and 1 in College of Science. Email her with other questions.
   1. Aucoin: There’s only 1 IDS? Shouldn’t we have 2?
   2. Trahan: No, Schexnayder and another girl.
   3. Aucoin: Other people were appointed to committees last meeting.
   4. Trahan: I didn’t look at the minutes for this week.
   5. Johnson: I am also in in Student Affairs.
   6. Trahan: I will relook though those minutes.
   7. Hollis: Who are other 2 in College of Education?
   8. There’s you and him and 2 other openings, you lost seats when we reevaluated seats.

ii. Aguda counted as present. There are now 20 out of 31 senators present.
c. Treasurer

   i. There is $19,166.22 left in the senate operating account. The President’s account is unchanged. Budget committee is full as far as senate is concerned. The President can appoint 3 more people to the committee. It appears that last week you talked about a transparency bill. It would’ve been nice to talk to me about it. I didn’t know about it until it posted to the agenda. No one asked my opinion. The bill wants me to go to every department and every college and ask for the fees and have a record of it. No one is required to tell us anything. I can knock all I want and they will tell me they’ll get it to me. We are going in the wrong direction. Another part of the bill says the treasurer needs to put all spending online. To my knowledge, no corporation, government, city, or state puts a running tab online. It’s always in flux because it’s always changing. We have multiple accounts and they’re always changing. I would’ve thought someone would talk to me since it affects me. This bill seems rushed and pushed through. Similar things have happened in the past. An amendment was rushed through last year and it took $25,000 out of the budget. The senate gave itself a $25,000 budget cut and it’s now untouchable. Someone wrote the amendment and they voted on it and it was passed. I like the fee bill, I would love to know where money is going, but it’s impractical.

   1. Clerk: How many accounts does Andrea have to deal with?
   2. Collado: She has people come in daily changing things. This semester we’ve eaten up 1/3 of that fund. We’ll be denying people next semester. She sent me paper with 4 pages to keep track of that one account. It’s a complicated process. That’s why there’s only a quarterly or yearly report.
   3. Lee: How many accounts do we have? What are we responsible for?
   4. LaJana: We currently 22-25 active accounts. You are welcome to come see me and I can show you them. It would be impractical to have one running account. They all have different accounts. When SG has budget committee meetings they then give it to financial affairs to put it into accounting. We can address them on that.
   5. Lee: I am chair of financial chair. I tried to have a meeting with Business Affairs and it hasn’t happened yet.
   6. LeJana: I would think you’d come to me first as your financial advisor.
   7. Lee: I was taken back that you had to be contacted.
   8. LaJana: I am your financial advisor.
   9. Lee: I will make an appoint with you after the meeting.
   10. Collado: This isn’t like a business. It’s complicated to keep fraud at bay. It’s more complicated than one running balance it’s a state thing.
   11. Christopher: It had to be automatically updated. It says semesterly. The Sunshine laws requires that any publicly expended funds has to give you the information.
   12. Collado: Do you realize how easy it is to go around that law. There are processes. Get the University to be responsible for it.
   13. Christopher: The beginning says that.
14. Collado: I’m against it being my responsibly, I’d be impeached in first 20 days. Which is exactly what I think you want.
15. Aucoin: Where’s the $25,000 that’s gone?
16. Collado: It’s not gone, we just can’t use it and it will be rolled over into the reserve account at the end of the year.

d. Judicial

e. Advisors

i. LaJana: LeeAnne couldn’t be here so I am here. For you to gather information around campus, it’s better for you to go to your advisors. I have information all about fees related to the transparency bill. There are things that aren’t clear about the bill. You want the fees on your feebill to be individually labeled. On bursar side of the feebill, we see those. The one’s about board of regent’s report, there’s general fund fees. All fees are designated. SG is considered a restricted fee fund. SG gets a portion of the fees budgets. Another fee is beautification. If you’d like to see portions of the budget, I can show you that. If I can’t get it, if you contact other offices, if you will copy me and LeeAnne so we can help instead of people e-mailing me saying to handle it. Because the president is ill, we’re having a provost search, we’ve gotten very few students participating in this. I know LeeAnne sent an email about student leaders attending this. I got a call today from Business Affairs asking if we had students going. For the Student Tech Fee committee, which is a restricted fund, they have a budget that needs to be approved, but there’s no student representation for them to meet. The president is a co-chair, but they need another student there to move forward with business for this fiscal year. If you are interested, join the student tech fee committee. You can report to this body.

1. Aucoin: You can tell us about how much each fee going where? Is there any way you can give that to us, and we can put it on the website?
2. Paige: There’s a university budget copy in the library. There’s a copy of each fee of what’s restricted or not. It’s an estimate of how much we plan to get and spend. Then you get a legere of what’s been spent today, if you want to see that, you have to see me.
3. Aucoin: Can we get the digital copy on of that on the website?
4. Paige: No, it’s already in public record, but there is not an agency in Louisiana that has it publicly available on a website.
5. Lee: Because this is a state university, all salaries have to be publicly available right?
6. Paige: Yes.
7. Lee: Then the budget should be, too.
9. Lee: You said the lab fee goes to the lab.
10. Paige: The lab and everything for the lab.
11. Lee: What about other fees?
12. Paige: There’s general fund fees and regular fees. The general fees go to classes. Last year we had students that were taking an FA class and were
being charged, and then teacher said they didn’t have money to provide for it. That’s a department problem

13. Lee: I addressed it in my department and asked how they get their fee they said it’s just a number.

14. LaJana: How much the lab gets depends on how much is allowed for that lab.

15. Lee: There needs to be a paper trail. There needs to be an inventory of students enrolled in the class.

16. Time extended.

17. Lee: I’m not trying to accuse anyone. If you have no reason to hide, why not be open about it, it let’s everyone feel comfortable.

18. Paige: The tech fee lab is open to everyone. The lab for a class is paid for by the students in that class. That is given to the department chair. The chair disseminates that money. If students don’t come forward and speak up, it’s on the general fund and you talk to chair of the department. The tech fee goes to everyone.

19. Lee: Take the chemistry lab, that goes to that department. The chair only gets a number. There should be a number of students registered, how much was collected from each student and where it was spent.

20. Paige: They can go in and see where they spent the money from that. The info is provided to them and department level decides all of that.

21. Lee: That’s not what was explained to me from Dr. Tar.

22. Paige: What’s not being provided?

23. Lee: We’re getting money, but there’s not a breakdown of it.

24. Paige: You want itemization. I can talk to Dr. Tar and the finance committee. I need to know the class and sections you’re talking about. They are just saying we have this many lab classes and have smallest number, then ask Dr. Tar if he received the money from the University. I don’t know what speed key is, I’m with Student Affairs. I can get the key and from that info when I look at lab fees, I’m looking at lump sum amount. I don’t know how’s distributed. I know the revenue amount, but not distribution, but I can find it out.

VIII. Old Business

- B.F14J011 Sexual Assault Reporting Act
  - Reese: You are asking if all harassment cases should be reported, then you would have to be reporting all the time. Catcalls happen daily and that is harassment.
  - Christopher: I don’t know if you’re saying that we should ignore it because it’s prevalent.
  - Paige: Has anyone contacted Mrs. King? Once it’s reported to the police, it comes through judiciary. She just came from a conference about sexual violence.
Christopher: I contacted UNOPD. They informed me of the federal law of assault and murder and about keeping track of crimes to keep it low. It’s a major concern with them. They said would like me to contact Hebert.

Paige: So haven’t talked to Amy King?

Christopher: No, I haven’t.

Paige: The police handle the criminal side and the university handles the reporting. That’s why we had to have two representatives go to the conference last week.

Christopher: This has to do with PD crime tolerance of it.

St. Amant: Let’s say this passes and the majority vote yes, what happens next?

Christopher: This will need to be discussed after the amendment process.

DiMaggio: How many amendments do you have coming up?

Christopher: One.

Collado: What is the purpose of the bill?

Christopher: It’s to call for a student vote of if they would want sexual harassment reported to the UNOPD. If it’s reported to any faculty member, it needs to go to the PD. Historically, harassment has been hidden through administration. This is to ask the student. This is just to have the students voice their opinion.

Collado: Does UNOPD have authority on this campus?

Christopher: They determine the validity and then send it over to NOPD. They don’t have rape kits. They hand off cases to them. Many cases are not reported to them. It’s beyond their jurisdiction to investigate without a report.

Collado: Is this really going to change it?

Christopher: The purpose is that the students will see the validity of reporting and issue administrative policy to report it.

Paige: If they vote yes, any administration will have to report it to the NOPD. Wouldn’t they be violating the confidentiality of the student? We report that to counseling service and our supervisor.

Christopher: That’s only on your side as admin. Others wouldn’t fall under that. If you were told, the only other person they’d tell is the police. Don’t think if you’re vocalizing it, you shouldn’t report it. We should never protect a perpetrator.

Paige: I’m talking in response to a grad student. We’ve been trained. That’s the whole purpose of sending the people to the conference. Everyone will have to be trained to comply with the law. We have to comply by April 15th.

Cormier: When they contact UNOPD, wouldn’t NOPD just redirect us back here anyways?

Christopher: If this happens off-campus, but is reported. I understand what LaJana is saying, but no one should be protected. If one person goes unpunished or unreported it’ll continue to happen. This is just to ask for a vote from the students. Saying no is saying that students don’t have a right to vote for themselves. It will be nice to have a policy that this has to happen.
There’s nothing in writing that this has to happen in a certain way. I can’t see anyone saying that rapist should be protected. This is to give students an opportunity to voice and vote and make decisions for themselves.

- Diez: If you’re forcing admin to report this, that completely infringes on the students’ right to not go through more trial.

- Christopher: They can always choose not to press charges. Anonymously is already in policy. The state can press charges. It will also cut down on fraudulent report and keep the perpetrators liable. If you didn’t want anyone to know, you wouldn’t report it to begin with. That protects individuals’ right. You chose to do that on your own. Your right is to not tell someone.

- McCloud: What about the rights of the accused to anonymously and presumption of innocence. This seems to be that this is an infringement of any defendant on their right because someone reported it. I’m not sure if the student body has the authority or has the right to decide on that.

- Christopher: Other institutions have it done internally which can lead to the person being expelled. This has the right for fair trial, but the people who can do that correctly is the PD. That is already part of us, its part of policy for administration. This is about the students having a vote. These are policy questions for down the line.

- Aguda: I’m staff, so I have to submit a formal report if I’m setting up a lab and overhear about a catcall. I’m then obligated to start a legal matter. Or if a friend tells me a story despite if they want it to be a formal report?

- Christopher: I don’t have that answer. I’m not dealing with the implementation part. This is a long drawn out process. It’ll be moved to administration. This is just to have student voice.

- Amendment to the bill.
  - Amendment attached.
  - This addresses the concerns of the amendment; the intent and reasoning. We all have concerns about the policy, but now this is just asking for the voting to take place.
  - A lot of things come up its just no-brainer to deal with it. It’s obvious. What people fail to understand, there’s no solidified process to deal with this. There’s a lot of grey to make black or white. That’s it.
    - With a roll call vote of 20 out of 31, the amendment is attached.

- Motion for 5 minute recess to look at the bill.
- Meeting was called back to order at 6:01pm.
- With a roll call of 20 of 31, we meet quorum.
  - Motion to table to SA to talk to Amy King and NOPD.
    - Approved.

- B.F14J012 Voting Transparency Act
  - Reese: Are there any amendments to this bill?
  - Christopher: Yes.
Johnson: Have any students told you they want to see the voting records?
Christopher: I’ve asked for voting records. Many students wouldn’t know to ask those questions. Transparency should happen regardless.
Aucoin: Can you give brief description of the amendment?
Reyes: That has to wait until the amendment process.
Aucoin: There’s no way to ask questions after the amendment?
Reyes: You can have a motion to have a questioning period, that’s at the discretion of the senate.
Paige: I have information from LeeAnne about the bill that might have been addressed in the amendment. This should be referendum rather than a bill. Who at UNO should be responsible of the fee numbers should be the bursar.
Christopher: That’s the next bill.
Paige: We don’t have control of how soon something gets published to the website. It has to be vetted. We send them weekly; we don’t always have time control on that. All she can promise is to have it posted to PR.
Collado: It says the senate clerk is required to post it. The senate clerk doesn’t have access to the website. Is that addressed in the amendment?
Christopher: I was advised that the Secretary of State should be with that.
Johnson: From my understanding, it’s already transparent, it’s just not online. There’s not a demand, but if there is we can worry about it later.
Aguda: I support this. As representatives, we should be transparent with how we vote.
Hollis: CSPAN is there for American people know what’s going on.
Motion to hear amendment.
   - Attached.
   - With a roll call vote of 20 of 31, amendment is attached.
DiMaggio: Motion to suspend Rules and Procedures to have a 10 minute questioning period, approved.
Reese: What is the Secretary of State’s opinion on this legislature?
Christopher: I was hoping she would be in attendance. Advisor Sipe said this is the best way since she already is responsible for the voting record.
Aucoin: I still don’t think 72 hours is enough time.
Christopher: That would be Friday. The turn-over rate is bad. When doing marketing, I was able to update it myself. The fact that students can’t know the info before it’s voted on is bad. It makes people angry. Important info is actively retrieved.
Reyes: I just want to let you know not blacklisting you back there, I’m just letting senators go first.
LaJana: Instead of having it online, if the minutes have been done, can it just be emailed with bills and scanned in.
Christopher: We don’t approve minutes until the next week. The reason for publishing it online is so that any student, not just those in this room, knows what’s going on. We don’t have the power to email everyone. We don’t have
that capacity. We need the ability to retrieve it digitally. It’s important to be able to click a button and get the info.

- Reyes: Walsh was pushing for this in regards for the voting record to be on social media.
- Aucoin: For Twitter, I never use it, but isn’t it only a 1 sentence limit. How will you have a whole voting record on there?
- Christopher: Just make a link.
- Aucoin: How much is SG being followed on Facebook?
- Reyes: We have 550 likes on Facebook and I don’t know on Twitter.
- Christopher: It doesn’t matter if it’s currently possible. They are only getting to people who are our friends. Posting it keeps record by itself. It’s has archives. The best example, Reyes went through Saybe’s records on an old hard drive and learned lots of information which helped him get to where he is now. It will get people better and involved. We should market for better and make it better.
- Reese: Has anyone asked you about the voting record?
- Christopher: When I talked to my 4000 level classmates. They were astounded that we don’t have it online.
- Reese: So answer was no, no one asked you to view the voting record?
- Christopher: No.
- DiMaggio: Why don’t the people who want to see the voting, why don’t they just come to meetings.
- Hollis: Eventually education majors have to go to schools to observe or have a teaching position. It’s tied to secondary school hours so it’s difficult to make the meetings.
- DiMaggio: There are other colleges and no one is here.
- Payne: There are classes going on in engineering right now. They have class, lives, and work.
- Reese: LeeAnne said 72 hours isn’t enough time, other than that I like the bill.
- DiMaggio: If students want to know, they can come see it. I think it’s a waste of time of the Secretary of State.
- Lee: It’s not a waste of time. I do research in me department. There are plenty of people who are interested in SG. We get a heads up on the docket, they don’t know when to come or not. We don’t even know. It’s inconvenient for us to come for an undefined about of time. It’s lengthy depending.
- Christopher: Even if one student has a question and is curious, they should have access. They should have the opportunity to care. I understand the negation’s point. 72 hours is not enough time. But when an engineer has an issue, you solve structural problem. This will create a positive policy. 72 hours is important. If something is bill tabled to SA, we didn’t know who was on the committee. Info spreading is important. There’s a reason colleges send reps to act for them. The reason we are here is because we care and for
those unable to. No one enjoys giving up time. People with kids can’t be with their kids.

- Collado: In a conversation with LeeAnne I learned that at one time SG could access the website. But with new licensing and cost, we lost that ability. We have a new web policy. It’s determined by administration. We had it and administration has taken from us.

- Me: When I send the minutes to LeeAnne, it may take a day for her to get it and send it to marketing, then marketing can sit on it for a couple days. It can take longer than 3 days and the bill has that responsibility on our Sec of State even though it’s not in her control.

- Christopher: She will send it to Sipe. Marketing needs to work better. We can’t go against this because of them. SG needs to be at the head of the line.

- Aucoin: Can we make an amendment?

- Reyes: You can if there’s a form here, then we can motion to go back to the amendment time.

- Motion for 15 minutes recess. Retracted.

- Motion to table bill to Student Affairs to talk to the Secretary of State.
  - Objection, tabled to Governance.
  - DiMaggio: Didn’t he say it was governance before and no one did anything?
  - Diez: No one emailed me to say anything was tabled to me. I was out of the country.
    - Withdrawn.

- Motion to table bill to governance so we can talk to the Secretary of State.
  - Approved.

- B.F14J013 Fee Transparency Act
  - Motion to table bill to governance
    - Point of Information: I have an amendment that needs to be passed to be properly discussed.
      - Failed.
  - Motion to straight to amendment.
    - Attached.
    - Unanimous consent to add to the bill
  - Motion to table this to the Governance committee.
    - Objection, I think we need a 10 minute questioning period.
    - Withdrawal motion.
  - Motion to suspend Rules and Procedures to add a 10 minutes questioning period.
  - Reese: Have you talked to the bursar to see if this is feasible.

- Christopher: I have, and Matt Moore, and others. The issue is that there’s not one office that has all the information. One department doesn’t have the information of another department. This is to call for a policy of administration for transparency. When you look at the UL system report, for fees, it has 0’s across the board. It’s not even accounted for at the state level.
Reese: So what did the bursar say?
Christopher: They said can’t do anything.
Reese: This affects the President and the Secretary of State, have you talked to them?
Christopher: This is about the treasurer, but I said he should not be punished if he can’t get the information. The info exists; it’s just about getting it to look at it. Instead of pushed around departments, it will be in one place.
Reese: Have you talked to the President to get his opinion?
Christopher: No, I can’t, he’s in the hospital. I think it would be crude to ask him to do SG issues when he’s in the hospital.
Reese: I agree.
Paige: If you don’t have proper interpretation of these accounts, it’s your opinion that haven’t accounted for that. I’ve never been consulted on that.
Collado: When reading the amendment, there’s still a requirement of reporting every 14 days of budget changes?
Christopher: Yes.
Collado: You say updated in 14 days. A running record online would be updated daily. It’s not done anywhere else. No one keeps a running record. You addressed other issues, but nothing else.
Christopher: It’s every 14 days, it’s just the number decreasing, you can add a line item to subtract the number in excel. It’s tedious, but it’s important to keep it updated. Every year, we have an issue of knowing where to go. Even restricted fees, it has 0’s across the board. The only place we can find it is in COSTA. The idea that we shouldn’t know where money going is fallible. Everyone wants to know where fees are going. We’ve had a resolution go through about parking lots and how senators feel the need to fix the parking lot. It doesn’t take but a second to see cracks in the LA building, where are the fees to fix that?
Collado: My question still is about expenditures in SG. That’s updated every single day. They get reports occasionally. Why is that not addressed?
Christopher: Two weeks is a long time. I think it’ll be good for transparency of the operating account. You can have someone help you. You laugh, but the Secretary of State has an assistant.
Reese: LeeAnne said she can’t the vote in 30 days.
Christopher: The information has been requested. I did the footwork to make sure it can and I got an affirmative on it.
Paige: The fees it pertains to, is this just SG fees? We have that. When you pass bills, we do running declining balance on all those account in the budget. So you’re talking about doing that for other fees? We already do that. We do keep running account of all those accounts.
Reese: Don’t think we should pass this bill until we talk to execs that it affects. Otherwise, I’m okay with the bill.
Christopher: This is week 3. I hope the president gets better, but hoping to wait around is not a good reason to stop something to make senate better.
Part of this is for student vote. If people know where money is being spent, they feel better. We know UNO is in a bad state, if we can all look, you can get more solutions. Collaboration is how you get the best solution. Give students right the right to vote. To try to obstruct this is a disservice.

- With a roll call vote of 9 yes, 5 no, 5 abstentions, this bill passes.

Many senators left the meeting at this point. Presiding Officer Reyes felt the need to conduct roll call. With only 15 senators present, quorum was not met and Reyes deemed the meeting adjourned at 7:06pm.

IX. New Business
   a. Roll Call
      i. With a roll call of 15 of 31, we don’t meet quorum. Meeting is adjourned.
      - B.F14J014 Committee Expansion Act

X. Nominations and Appointments
   - Nischal Adhikari, College of Business, Senate
   - Dylan Wilson, College of Science, Senate

XI. Open Forum

XII. Adjournment
Amend Senate Bill B.F14J011 so that the original wording:

BE IT ENACTED BY THE UNIVERSITY OF NEW ORLEANS STUDENT GOVERNMENT THAT:

THAT A STUDENT WIDE REFERENDUM VOTE SHALL BE HELD ON THE QUESTION OF:

“DO YOU SUPPORT THE MANDATORY REPORTING OF ALL SEXUAL ASSAULT, HARASSMENT, AND RAPE CASES ON CAMPUS TO THE NOPD TO PURSUE THESE CASES TO THE FULL EXTENT OF THE LAW?”

THIS VOTE MUST OCCUR NO LATER THAN 30 DAYS AFTER THE PASSAGE OF THIS BILL.

THIS VOTE SHALL BE DETERMINED BY THE MAJORITY DECISION OF THOSE VOTING.

BE AMENDED TO:

BE IT ENACTED BY THE UNIVERSITY OF NEW ORLEANS STUDENT GOVERNMENT THAT:

THAT A STUDENT WIDE REFERENDUM VOTE SHALL BE HELD ON THE QUESTION OF:

“DO YOU AGREE OR DISAGREE THAT AN ADMINISTRATIVE POLICY BE CREATED FOR THE MANDATORY REPORTING OF ALL SEXUAL ASSAULT, HARASSMENT, AND RAPE CASES ON CAMPUS TO THE NOPD BY ANY FACULTY, ADMINISTRATOR, STAFF, CONTRACTOR, BUSINESS, OR INDIVIDUAL RECEIVING ANY FORM OF PAYMENT OR FINANCIAL SUPPORT FROM THE UNIVERSITY OF NEW ORLEANS SO THE NOPD MAY PURSUE THESE CASES TO THE FULL EXTENT OF THE LAW.”
Attachment #2: B.F14J013 Amendment

Amend Senate Bill B.F14J013 so that the original wording:

BE IT ENACTED BY THE UNIVERSITY OF NEW ORLEANS STUDENT GOVERNMENT THAT:

THE STUDENT GOVERNMENT SENATE CLERK IS REQUIRED TO RECORD AND PUBLISH THE VOTING RECORD OF EACH VOTE ITEMIZED BY SENATOR.
