# WELCOME *TO UNO!*

---

The University of New Orleans has so much to offer that we can't possibly introduce it all to you during your brief orientation! The Office of Student Involvement & Leadership designed Privateer Plunge to offer you a variety of opportunities to understand the resources available to you and to meet other UNO students, faculty and administrators.

We hope you take the plunge!

Please contact the sponsoring organization for each specific event at the email address listed at least one week in advance.

# THE CHALLENGE

During Privateer Plunge you will be expected to attend at least three (3) events within your first few weeks at the University of New Orleans. The challenge is to attend events in each of the different categories: Involvement, Resources and Traditions. To successfully take the plunge challenge, you must attend these events by October 1st!

Each category is denoted by a color splash:

**INVOLVEMENT**

**RESOURCES**

**TRADITIONS**

Reference this guide for information about when and where events are happening and which category applies to each using the splash by the event name.

Event details are subject to change. For the most up to date information, you can find a list of events online at [www.uno.edu/fyt/privateerplunge](http://www.uno.edu/fyt/privateerplunge) or listed under the “Events” tab in the UNO Social mobile app.

## WHAT’S MY INCENTIVE?

When you attend an event, sign in using the UNO Social mobile app (search for “UNO Social” in the App or Play Store) to scan the event’s posted QR codes. Once you check in, your attendance will be noted and uploaded to our Privateer Plunge attendance system.

If you check in to an event outside of its scheduled time, you will not receive Privateer Plunge credit for attending the event.

You are going to meet new friends, professors and administrators and make the important transition from high school to college. College is what you make it; make it awesome!

### **Knowing When and How to Call Someone Out**

University Center Ballroom (6-7pm)

Confronting people on issues, behaviors, and fellow members on performance-related matters can make for challenging situations for all involved parties. In most instances, it's not what you say, but how you say it that

can make the difference between escalating or creating learning opportunities. Understanding how to address incidents of ignorance being spoken, or acts of intolerance that push the boundaries, are essential components to college and beyond. When we don't confront, we grant people passive acceptance to continue to act, joke, or speak in ways that can cause harm.
