Pre-Optometry Advising

Listed below are required and recommended courses for entry into optometry school. Requirements vary widely from one school to the next, so students should consult the Association of Schools and Colleges of Optometry (ASCO) website http://www.opted.org/.

Admission is competitive. Applicants must have a baccalaureate degree. Most students choose to earn a degree in Biology or Chemistry. Students may earn a baccalaureate degree in any field as long as the degree allows for a sufficient amount of free electives so that all of the required medical school courses can be taken.
