***Areas of study:** Circle around or underline your chosen area of *depth*:

1. Theoretical Computer Science and Programming Languages
2. Systems and Networks
3. Cybersecurity
4. Software Systems
5. Database Systems and Distributed Application
6. Computer Graphics and Visual Computing
7. Artificial Intelligence

CSCI 7000 (6 hours minimum): Semesters: _____ / _____

Thesis Title: _____ Advisor: _____

*Areas of study must fulfill:

- *background* requirement: CSCI-5401 & CSCI-5501, if not already taken for B.S.
- *breadth* requirement: three 6000-level courses from three different areas of study (except the depth area chosen)
- *depth* requirement: three courses (at least two 6000-level) from one area of study different from the breadth areas chosen

Note:

- At most **four** 5000-level courses count towards the degree requirement
- At most six (06) hours of Thesis Research count towards the degree requirements
- The following 6000-level courses DO NOT count towards the degree requirements: CSCI-6001, CSCI-6090

Consult the department website for the current list of courses offered and their corresponding areas.

**D = # of credits counted towards the degree requirements.
 (24 hours + 6 hours thesis are the minimal requirements)
