2020-2021
Louisiana Board of Regents Support Fund
Research Competitiveness Subprogram (RCS)
Breakout Session

OFFICE OF RESEARCH
Research Competitiveness Subprogram (RCS)

- The proposed research must include fundamental (basic) research contributions rather than simply the application of existing knowledge.
- The RCS is a stimulus program directed towards junior researchers who are at the **threshold of becoming nationally competitive**.

Eligible Disciplines for 2020-2021

- Biological Sciences I and II
- Computer and Information Sciences
- Earth/Environmental Sciences
- Chemistry
- Health and Medical Sciences
- Engineering B (Industrial, Materials, Mechanical, etc.)
PI Eligibility

RCS is directed toward junior researchers who are at the **threshold of becoming competitive** and who, with assistance from RCS will be able to:

- implement their plans to overcome whatever barriers they have identified which have stood in their way
- develop a strong potential for enhancing their competitive status within a limited time span.

It is unlikely that researchers who are already established and federally funded would be highly competitive.

Junior researchers at the threshold of becoming competitive will be given priority over senior researchers who are changing research fields.
The goal of the RCS one-year is to stimulate and support faculty on a limited basis in their exploration of novel science and engineering research leading to near-term federal support.

The RCS One-Year Research Component provides short-term pilot awards for both tenured and tenure-track faculty.

Tenure-track faculty can use the seed funding made available by this program to sharpen their research focus and develop cutting-edge techniques.

Tenured faculty can use the award to demonstrate an innovative or novel concept and become more competitive by investigating new areas that require a shift in their current research direction.

► An eligible faculty member may serve as a principal or co-principal investigator on a maximum of one RCS grant at any one time.

► Individuals who received RCS or RCS One-Year awards in last year’s competition (i.e., RCS and RCS One-Year contracts with a start date of 6/1/2020) are not eligible for this round of funding.

► An applicant may submit a maximum of one research proposal in the RCS with the applicant listed as "Principal or Co-Principal Investigator".
  ► An applicant may be listed as "Other Investigator" on additional RCS proposals.
Notice of Intent

Due September 30, 2020 by 4:30 pm in LOGAN

The NOI form includes a cover page requesting the title, investigator, amount requested, and other general information, and a narrative project summary that provides an overview of the project.

- There are no restrictions on the length of the project summary, though it is recommended that the document not exceed one page.

To create or sign-into your LOGAN account click [here](#).

If necessary, the title of the proposed research and the amount of funds requested in the RCS notice of intent may be changed slightly when the full RCS proposal is submitted. The discipline under which the proposal is submitted, however, must be the same as that under which the RCS notice of intent was submitted. The substance and subject matter of the proposal may not change.
RCS Proposal

► Submitted electronically, via LOGAN, by 4:30 p.m. CT on Monday, November 9, 2020

► Cover Page (form filled out and submitted through LOGAN)

► Project Summary
  ► Maximum of 250 words entered into LOGAN

► Goals and Objectives
  ► The final goal to be reached by the end of the grant period, and/or annual goals for any intervening years, must be clearly specified.
  ► This section of the proposal must be no longer than the equivalent of one, single-spaced, typewritten page and uploaded to LOGAN as a separate .pdf document.
RCS Narrative

- All narrative sections of the proposal must be presented in a single PDF document with pages numbered, 1-inch margins at the top, bottom and on each side, and in type no smaller than 12 point.

- RCS Proposals – 15 page limit; RCS One-Year – 5 page limit

- Narrative Sections:
  - Rationale of the Project
  - Research Plan
  - Involvement and Qualifications of Investigators, Other Faculty, and Students
  - Institutional Capabilities and Commitment
  - Bibliography
    - Narrative page limits do not include the bibliography. The bibliography shall not exceed 2 pages.

- Please refer to the RFP for full details on what to include in narrative sections.
Appendices

Essential material supplementary to the text of the proposal should be uploaded as a single .pdf document.

The appendix must be referenced in the proposal narrative, and may not exceed 15 pages for RCS and 5 pages for RCS One-Year applicants.

Appendices may include:
- Attachments/Supplemental Information
  - All general supporting materials (e.g., charts, photos) to which reference is made in the narrative section must be clearly marked and included.
- Letters of Support
  - Although the applicant ultimately must decide whether letters of support are needed, their addition is strongly encouraged in instances in which an agency (other than the applicant's employing institution) or a person (other than the project personnel) will assist or collaborate in the research in some manner.

Appendices and Letters of Support are an excellent place to strengthen your proposal.
