Statuses

DRAFT

The form opens in Draft status and can be edited by the initiator. Once the form is submitted, it will no longer be in Draft status.

SAVED

If the initiator edits the form and submits it without the PI’s signature, the form will enter Saved status.

The initiator can save progress on Subaward Draft Requests by clicking the Save for Later button without signing. SharePoint will automatically email a copy of the Saved form to the initiator.

If someone initiates a form on behalf of a PI, the initiator may click the Save for Later button to submit without signing it then forward the resulting email to the PI for their signature.

The next time a Saved form loads, the form will automatically switch to Draft status.

SUBMITTED

If the form is submitted with the PI’s signature, the form will enter Submitted status.

The initiator (and the PI, if different) will receive an email confirming submission of the form. The request will forward to the Office of Research for processing.

REJECTED

If a form is rejected by any party, the form will enter Rejected status. The initiator (and the PI, if different) will receive notification of the rejected form via email.
