

## Woodlot Restoration Kickoff Event THE UNIVERSITY OF NEW ORLEANS

Help us launch our effort to provide expanded habitat for migrating birds at UNO! We will remove invasive species from the Fine Arts WOODLOT and prepare the area for 50 bird-friendly native trees to be planted this winter.

## SATURDAY, NOVEMBER 6, 2021

## 9:00 AM - 2:00 PM

Please bring water, gloves and wear long pants, close-toed shoes, and socks. Shovels and clippers are helpful, if you have them. If it rains on November 6, we will reschedule for November 13.

**Directions**: From Leon C. Simon Blvd., enter campus via Founders Road and proceed to the Fine Arts building. Parking will be available at the north end of the road by the woodlot.

To request disability-related accommodations or for more information, please contact Liz Sigler at **birding@uno.edu**.
