Understanding the role of Gut Immune dysfunction and Gut Microbiome in pathogenesis of Central Nervous System co-morbidities in people living with HIV (R21 Clinical Trial Not Allowed)
National Institutes of Health (NIH), Department of Health and Human Services (HHS), National Institute of Mental Health (NIMH)

Notice seeking applications to support studies to investigate mechanisms by which the gut microbiome and gut immune system modulates the brain functions, circuits, neurotransmitters, signaling pathways and synaptic plasticity in the context of HIV and Anti-retroviral therapy. Exploratory and high-risk research projects are encouraged.

Applications are due November 18, 2022. Optional letters of intent are due 30 days prior to the application due date. Approximately \$1.5 million is available to fund three to five awards.

DoD Multiple Sclerosis, Early Investigator Research Award
Army (Army), Department of Defense (Defense)

Notice seeking applications to support MS-focused research opportunities for individuals in the early stages of their careers, under the guidance of one or more designated Mentors. This opportunity allows for early-stage investigators to develop a research project, investigate a problem or question in MS research, and further their intellectual development as an MS researcher of the future.

Required pre-applications are due August 2, 2022. Approximately \$1.9 million is available to fund six awards.

DoD Multiple Sclerosis, Exploration-Hypothesis Development Award
Army (Army), Department of Defense (Defense)

Notice seeking applications to support the initial exploration of innovative, high-risk, high-gain, and potentially groundbreaking concepts in the MS research field. The studies supported by this award mechanism are expected to lay the groundwork for future avenues of scientific investigation.

Required pre-applications are due June 23, 2022. Approximately \$2 million is available to fund eight awards.

DoD Multiple Sclerosis, Investigator-Initiated Research Award
Army (Army), Department of Defense (Defense)

Notice seeking applications to support highly rigorous, high-impact research projects that have the potential to make an important contribution to MS research and/or patient care. Research projects may focus on any phase of research, excluding clinical trials.

Required pre-applications are due June 23, 2020. Approximately \$6 million is available to fund six awards.

Improving Maternal Health through Addressing Endometriosis, Fibroids, and-or Polycystic Ovary Syndrome
Department of Health and Human Services (HHS), Office of the Assistant Secretary for Health (OASH)

Notice seeking applications to fund demonstration projects to implement and evaluate evidence-based interventions to comprehensively identify and treat endometriosis, fibroids, and/or polycystic ovary syndrome (PCOS) with an emphasis on addressing and reducing disparities in underserved communities.

Applications are due July 7, 2022. An estimated eight awards of up to \$300,000 each is available.

SCIENCE, TECHNOLOGY, ENGINEERING, and MATHEMATICS

Biological Technologies

Defense Advanced Research Projects Agency (DARPA), Department of Defense (Defense), Biological Technologies Office (BTO)

Notice seeking proposals revolutionary research ideas for topics not being addressed by ongoing BTO programs or other published solicitations.

Abstracts and Proposals are due anytime until April 20, 2023. Multiple awards are anticipated.

Future of Semiconductors- Teaming for Co-Design Research Capacity (FuSe Teaming Grants)
National Science Foundation (NSF)

Notice seeking proposals for partnerships from a broad coalition of researchers from across science and engineering communities to utilize a holistic, co-design approach to fundamental research and education and training, to enable rapid progress in new semiconductor technologies.

Applications are due July 18, 2022. Approximately \$10 million is available to fund 30 awards.

NSRP Advanced Shipbuilding Enterprise Research Announcement Solicitation Release (RA23)
Department of Defense (Defense)

Notice seeking proposals for research, development and implementation of relevant technologies or improved processes for the U.S. shipbuilding and ship repair enterprise that will accomplish the objectives of the National Shipbuilding Research Program (NSRP) mission.

Proposals are due July 18, 2022. Approximately \$3 million is available. 50 percent cost share is required.

ROSES 2022: X-Ray Imaging and Spectroscopy Mission Guest Scientist Program
National Aeronautics and Space Administration (NASA)

Notice seeking proposals to participate in the analysis, interpretation, and publishing of the Performance Verification (PV) data for the target on which the investigation in the selected XRISM Guest Scientists (XGS) proposal is focused. Access to the XRISM PV data for XGS awardees is limited to observations of this target and any ancillary data required to perform the analysis.

Proposals are due July 21, 2022. Approximately \$2.5 million is available to fund 20 awards over two year.

Aerospace Safety Advisory Panel; Meeting
National Aeronautics and Space Administration (NASA)

Notice announcing a meeting of the Aerospace Safety Advisory Panel. The purpose of the meeting is to carry out its statutory duties for which the Panel reviews, identifies, evaluates, and advises on those program activities, systems, procedures, and management activities that can contribute to program risk. Priority is given to those programs that involve the safety of human flight.

The meeting will be held Thursday, May 12, 2022, 1:30 pm to 3:00 pm, ET via virtually only.

Cooperative Agreement to Facilitate Coordination Between DOE-NE and Energy Communities, Vital Constituencies, and Educational Groups
Department of Energy (Energy), Office of Nuclear Energy (NE)

Notice seeking applications to actively communicate and engage with communities with vested interest in the goals of the office. These communities have a unique perspective vital to developing nuclear energy projects and to completing other office priorities. The Office of Nuclear Energy will work with partners to connect and interact with underserved communities that could benefit from nuclear energy projects to ensure that the growth produced by clean energy projects is equitably delivered to all.

Required letters of intent are due June 1, 2022. Applications are due July 18, 2022. Questions are due May 5, 2022. Approximately \$1.6 million is available to fund 2 to 11 awards.

Opportunities for Promoting Understanding through Synthesis
National Science Foundation (NSF)

Notice seeking proposals from individuals, typically at later-career stages, who have contributed significant insights to a field or body of research, to revisit and synthesize that prior research into a unique, integrated product(s) useful to the scientific community, now and in the future.

Applications are accepted at any time. An estimated 8 to 15 awards of up to \$350,000 are anticipated per year.

ROSES 2022: Advanced Component Technology
National Aeronautics and Space Administration (NASA)

Notice seeking proposals for technology development leading to new component-level as well as subsystem-level spaceborne and/or airborne measurement techniques in support of the Science Mission Directorate's Earth Science Division. The ACT program is managed by NASA's Earth Science Technology Office (ESTO). ESTO supports the development of a range of advanced observation and information systems technologies to meet the demand of future Earth science measurements and activities addressing the full scientific measurement process.

Proposals are due July 26, 2022. Requested Notices of Intent are due June 10, 2022. Up to \$4.8 million is available to fund 10 to 12 awards.

Physics Frontiers Centers

Directorate for Mathematical & Physical Sciences (MPS), National Science Foundation (NSF)

Notice seeking proposals to support university-based centers and institutes where the collective efforts of a larger group of individuals can enable transformational advances in the most promising research areas. The program is designed to foster major breakthroughs at the intellectual frontiers of physics by providing needed resources such as combinations of talents, skills, disciplines, and/or specialized infrastructure, not usually available to individual investigators or small groups, in an environment in which the collective efforts of the larger group can be shown to be seminal to promoting significant progress in the science and the education of students.

Required preliminary proposals are due August 1, 2022. Approximately \$6 to \$8 million is available to fund three to five awards.
