Bailey Bullock

**Program:** Master of Science in Transportation  
**Event:** University Transportation Center Outstanding Student of the Year Awards, Washington, DC

Bailey Bullock will be recognized by the US Department of Transportation as a University Transportation Center (UTC) Outstanding Student of the Year. She will travel to Washington, D.C. for a special ceremony held by UTC in conjunction with the Council of University Transportation Centers (CUTC) Annual Awards event. She will receive a USDOT Certificate of Achievement, a monetary prize, and travel and lodging expenses to attend the 2024 Transportation Research Board Annual Meeting.

Faisal Mallum

**Program:** Ph.D. Urban Studies  
**Event:** Dissertation defense, “The Impacts of Changing Trade Policies, the COVID-19 Pandemic, and Russia-Ukraine War on Trade Volumes, Jobs, and Economic Growth in Louisiana Port City Regions and the State of Louisiana”

In 2018, President Donald Trump imposed several tariffs and levies on steel, aluminum, and other goods imported from China and ally nations such as Mexico, Canada, and countries within the European Union. “The tariffs have had far-reaching effects, including retaliatory tariffs imposed by affected nations, U.S. agricultural products,” explains Faisal Mallum.

Mallum's research “seeks to increase our understanding of how international trade policies can affect the productivity of ports and the economies of the communities that support them.”

Alexandra Holliday

**Program:** Master of Science in Transportation  
**Event:** Women's Transportation Seminar Greater New Orleans (WTSGNO) Student Scholarship

WTSGNO is dedicated to fostering the development of women in the transportation field. Alexandra Holliday was selected for a highly competitive scholarship which is awarded based on the applicant's specific goals, academic record, and skills.
Amanda Kirkland

**Program:** Ph.D., Integrative Biology  
**Event:** 2024 Class of the John A. Knauss Marine Policy Fellowship Program, Washington, DC

Amanda Kirkland researches the effects of global change on marine calcifiers such as corals, oysters, clams and shrimp. Her research includes examining the effects of warming and acidification on artificial reef ecosystems.

“Moving forward with my career, I would like to work on science that can affect national policies in an ocean-positive manner,” Kirkland said. “This fellowship will give me a unique opportunity to be placed in the offices where policy is made and enforced, allowing me to work at the intersection of policy, science and outreach.”

Sponsored by the National Oceanic and Atmospheric Administration’s National Sea Grant College Program, the highly competitive fellowship program is a one-year paid opportunity for students of advanced degree programs to apply their scientific knowledge and experiences to lasting careers in the sciences, policy, and public administration.
