### Veterinary Services Grant Program

Notice seeking applications under the following program areas: The Education, Extension, and Training (EET) program which supports initiatives that will enable veterinarians, veterinary students, veterinary technicians, and veterinary technician students to gain specialized skills through formal coursework, clinical

training, and practice enhancement to mitigate veterinary service shortages; and The Rural Practice Enhancement (RPE) program area ultimately bolsters the capacity of private clinics (with or without a veterinarian's student loan repayment obligation) that can provide food/large animal veterinary services for designated veterinarian shortage areas. For RPE, duplicate or multiple submissions are not allowed.

Applications are due April 16, 2026. An estimated \$3.8 million is available to fund up to 20 awards.

Bergel Institute Bringing an End to the Poverty-Violence Connection in U.S.

Notice seeking proposals for deep immersion into the poverty–violence relationship, with the aim of developing a credible roadmap to reduce violence through practical, measurable action. Fellows will analyze who is most affected, where violence concentrates, what conditions correlate with risk, and what has and has not worked in past efforts.

Proposals are due February 28, 2026. Fellows receive a stipend of \$30,000. Fellowships run from June to May and are primarily virtual, with two paid institute visits to the home office in Florida as the only in-person expectations during the fellowship year.

### New World Screwworm Grand Challenge

Notice seeking applications to prevent the northward spread of new world screwworm (NWS) by supporting projects that strengthen detection, control, and eradication readiness. APHIS hopes to identify both projects that will augment our rapid response to the growing threat of NWS to serve as an interim step while production increases, but also long-term investments that expand our ability to respond to the parasite now and into the future – technologies that, perhaps, could have applicability with other animal disease response programs.

Applications are due February 23, 2026. An estimated \$100 million is available to fund up to 20 awards.

### National Security Economic Theory (NASCENT) Proposers Day

Notice announcing a hybrid proposers' day in support of the National Security Economic Theory (NASCENT) Program. The purpose of this event is to provide information on the NASCENT technical goals and challenges, address questions from potential proposers, and provide an opportunity for potential proposers to consider how their research may align with the NASCENT program objectives. The NASCENT program seeks to create the theoretical foundation for geoeconomics<sup>1</sup> to eventually enable evidence-based economic statecraft in furtherance of U.S. national security objectives.

The event will be held February 23, 2026 at 9:00 a.m. ET at DARPA Conference Center, 675 N Randolph St., Arlington, VA. Registrations are due by February 9, 2026.

---

### NIH Collaborative International Research Project (Parent PF5 Clinical Trial Optional)

Notice seeking applications for international research collaborations. All collaborative international research project applications must include at least 1 international subproject. The proposed project must be related to the programmatic interests of one or more of the participating NIH Institutes, Centers and Offices (ICOs) based on their scientific missions. The application will be evaluated as a whole, and the international

subproject(s) will be evaluated on whether the project presents special opportunities for furthering research programs through the use of unusual talent, resources, populations, or environmental conditions in other countries that are not readily available in the United States or that augment existing United States resources, and whether the proposed project has specific relevance to the mission and objectives of the ICO and has the potential for significantly advancing the health sciences in the United States.

Applications are due May 25; September 25; January 25, annually until January 25, 2029. Award amounts will vary.

## SCIENCE, TECHNOLOGY, ENGINEERING, and MATHEMATICS

Carderock BAA

Notice seeking proposals for basic and applied research focused upon technologies and capabilities that offer potential for advancement and improvement of Naval Surface Warfare Center, Carderock Division (NSWCCD) operations and core competencies. Interested research areas range from Digital Ecosystems to Ship and Submarine Design.

Proposals are due February 27, 2026. Multiple awards are anticipated.

LINKS: [Grants.gov](#)

---

Commercial and Economic Research and Innovation (CERI)

Notice seeking white papers to support Office of Commercial and Economic Analysis (OCEA) mission of preserving U.S. Air Force and DoD persistent needs by innovating with creative commercial partners.

White papers will be accepted until September 1, 2026.

LINKS: [Contract Opportunities](#)

---

Hardware-in-the-loop of Advanced Navigation & Guidance Sensors (HANGS)

Notice seeking enhanced white papers for the design, development, integration, and deployment of prototype technologies for Hardware-in-the-loop of Advanced Navigation & Guidance Sensors (HANGS).

Enhanced white papers are due January 31, 2026. Questions are due January 22, 2026. Multiple awards are anticipated.

LINKS: [Contract Opportunities](#)

---

Fast and Curious Proposers Day

Notice announcing a proposer's day event to introduce the Fast and Curious Disruption Opportunity (DO) to potential proposers.

This event will take place on February 4, 2026. Required registration must be completed by January 27, 2026.

LINKS: [Contract Opportunities](#)
