SCIENCE, TECHNOLOGY, ENGINEERING, and MATHEMATICS

BIOMolecular Grammar for protein Aggregation Modulation and Intervention (BIOGAMI)

Notice seeking solution summaries to develop technology to predict and modulate pathological consequences of protein misfolding and aggregation in vivo and identify and validate novel indicators of early protein misfolding for disease detection. A proposer's day event will also be held to discuss this program.

Solution summaries are due March 4, 2026. The Proposer's Day event will take place on February 20, 2026 with required registration being due February 18, 2026 (in-person attendees), and February 19, 2026 (virtual attendees).

EQT Foundation Critical Minerals for the Green Transition

Notice seeking applications developing high-risk, high-impact deep-tech solutions that reduce or eliminate the use of critical and strategic raw materials in key climate technologies. Designed to accelerate bold scientific ideas with strong translational potential, the call is open to scientists affiliated with accredited nonprofit institutions worldwide.

Applications are due February 25, 2026. Awards are from \$29,875 to \$199,500.

LINKS: [Agency Site](#)

TTO Office Wide (OW) BAA 2025

Notice seeking executive summaries to investigate innovative approaches that enable revolutionary advances in science, devices, or systems. Submissions must fall under the following topic areas: Design/Build/Buy, Surge and Sustain, Long Range Effects, and Disruptive Innovation.

Executive summaries are due April 17, 2026. Multiple awards are anticipated.

2026 Data Science Fellowship

Notice seeking applications to provide recent graduates a unique opportunity to develop and apply data science skills to important issues in national security. The fellowship is a project-based learning experience within a variety of research areas. In a collaborative team environment, fellows perform data manipulation and statistical, econometric, predictive, descriptive, and other quantitative analyses to help answer important sponsor-funded research questions as well as internal-funded business operations questions.

Applications are due March 31, 2026. Fellows receive an annual stipend as follows: Data Science Fellow I (Bachelors): \$83,000 (Year 1), \$85,500 (Year 2) and \$88,000 (Year 3); and Data Science Fellow II (Masters): \$98,000 (Year 1), \$100,500 (Year 2) and \$103,000 (Year 3).

CyberAICorps Scholarship for Service

Notice seeking proposals that address AI and cybersecurity education and workforce development. CyberAI refers to using AI in cybersecurity as well as providing security and resilience for AI systems.

Proposals are due April 3, 2026. An estimated \$300,000 to \$2.5 million is available to fund up to 25 awards.

LINKS: [Grants.gov](#); [Solicitation](#)

Environmental Security Technology Certification Program

Notice seeking proposals for innovative, cost-effective solutions to address the department's most pressing energy security, infrastructure resilience, and sustainment challenges. The focus of this program is installation energy and water technologies.

Required preproposals are due March 26, 2026. Award amounts vary.

LINKS: [Contract Opportunities](#); [Solicitation](#)

IT Lab: A Summer Cybersecurity Fellowship

Notice seeking applications for a fully funded, seven-week cybersecurity program designed for students interested in IT, data analytics, and cybersecurity. The program combines graduate-level coursework, hands-on projects, and professional mentorship, giving participants the experience of a cybersecurity internship.

Applications are due March 1, 2026. A \$2,000 stipend and \$1,000 meal allowance is available.

ROSES25: B.2 Heliophysics Foundational Research

Notice seeking proposals for investigations that advance the fundamental physical understanding of the Sun-Heliosphere-Planetary system. The program is intended to support forward-looking, high-impact research that is at the forefront of heliophysics science and that motivates and enables future heliophysics missions, programs, and strategic investments.

Step 1 proposals are due May 1, 2026. Step 2 proposals are by invitation only. Award amounts vary in duration and amount depending on category.
