

## ARTS, HUMANITIES, and INTERNATIONAL

Luce ACLS Dissertation Fellowships in American Art

Notice seeking applications for fellowships pursuing research on the history of art and visual culture of the United States, including Native American art. Fellowships are to support any stage of PhD dissertation research or writing. Additional funding for travel and research allowance is available.

Applications are due October 29, 2025. Fellowships support up to \$38,000 with additional support for travel and/or research.

## EDUCATION and ECONOMIC & COMMUNITY DEVELOPMENT

BJA FY25 DNA Capacity Enhancement for Backlog Reduction (CEBR)- Competitive Grants Program; Formula Grants Program

Notices seeking applications for both the BJA Competitive Grants Program and the Formula Grants Program. The Competitive Grants Program aims to maximize the effective utilization of DNA technology to strengthen evidence-based criminal justice responses. The Formula Grants Program provides funding for laboratories to process and increase their capacity to process DNA samples for entry into CODIS with the goals of reducing backlogs and improving timeliness of testing.

Applications are due October 22, 2025 for Grants.gov, and applications are due October 29, 2025 for JustGrants in both programs. The Competitive Grants Program has an estimated \$3 million available for three awards. The Formula Grants Program has an estimated \$87 million or more for 130 awards.

---

BJA FY25 Strengthening the Medical Examiner-Coroner System Program

Notice seeking applications to increase the number of qualified forensic pathologists and enhance the quality of medicolegal death investigations nationwide by offering fellowships and resources to ME/C offices.

Applications are due October 6, 2025 for Grants.gov and applications are due October 13, 2025 for JustGrants. An estimated \$1.75 million is available for up to 13 awards.

LINKS: [Grants.gov](#); [Solicitation](#)

---

Innovation and Early Learning Programs: Education Innovation and Research (EIR) Program Expansion Grants Assistance Program Mid-Phase Grants

Notices seeking applications for the Education Innovation and Research (EIR) Program Expansion Grants and the Program Mid-Phase Grants. The EIR program provides funding to create, develop, implement, replicate, or take to scale entrepreneurial, evidence-based, field-initiated innovations to improve student achievement and attainment for high-need students; and to rigorously evaluate such innovations.

Applications are due October 14, 2025 for both programs. An estimated \$253 million is available for multiple awards.

LINKS: [Grants.gov \(Program Expansion Grants\)](#); [Grants.gov \(Program Mid-Phase Grants\)](#); [Agency Site](#)

---

### OJJDP FY25 Internet Crimes Against Children Task Force National Training Program

Notice seeking applications that aim to provide training to ICAC task forces and affiliated federal, state, and local law enforcement and prosecutorial agencies in the areas of investigation, forensics, prosecution, community outreach, officer wellness, generative artificial intelligence, financial sextortion, and capacity building.

Applications are due October 21, 2025 for Grants.gov and applications are due October 27, 2025 for JustGrants. An estimated \$3.7 million is available to fund up to six awards.

LINKS: [Grants.gov](#); [Agency Site](#)

---

### OJJDP FY25 Strategies To Support Children Exposed to Violence; Multistate Mentoring Programs; Post-Secondary Education Opportunities for Child Protection Professionals

Notices seeking applications for FY25 solicitations available from the Office of Juvenile Justice Delinquency Prevention (OJJDP). These opportunities include: Strategies To Support Children Exposed to Violence, Multistate Mentoring Programs which aims to expand mentoring services to high risk youth, and Post-Secondary Education Opportunities for Child Protection Professionals.

Applications for all three solicitation are due October 21, 2025 for Grants.gov, and applications are due October 27, 2025 for JustGrants. Award amounts and funding vary by solicitation.

---

### Agency Information Collection Activities: Proposed Collection: Public Comment Request; Information Collection Request Title: Nurse Faculty Loan Program Forms OMB No. 0915-0314-Revision

Notice seeking comments from Nurse Faculty Loan Program (NFLP) school recipients and NFLP applicants to assist HRSA in streamlining the application submission process, enabling an efficient award determination process, and facilitating reporting on the use of funds and analysis of program outcomes.

Comments must be submitted by November 12, 2025.

LINKS: [Federal Register](#)

---

### BJA FY25 Body-Worn Camera Policy and Implementation Program to Support Law Enforcement Agencies

Notice seeking applications to support publicly funded law enforcement and correctional agencies in establishing or expanding body-worn camera (BWC) programs. Properly implemented BWC programs can strengthen the evidentiary foundation for criminal prosecutions, provide reliable documentation of officer-citizen encounters, and deter assaults on officers.

Applications are due October 27, 2025 for Grants.gov and November 3, 2025. An estimated \$22.82 million is available to fund 40 awards ranging up to \$2 million.

LINKS: [Grants.gov](#); [Solicitation](#)

---

### BJA FY25 Missing and Unidentified Human Remains (MUHR) Program

Notice seeking applications that supports efforts to improve the reporting, transportation, forensic processing, and identification of missing persons (MP) and unidentified human remains (UHR) cases, including those involving migrants as authorized by Public Law 116-277. This program increases public

safety by providing resources to locate and identify missing persons and unidentified human remains in the United States.

Applications are due October 10, 2025 for Grants.gov and October 17, 2025 for JustGrants. An estimated \$5.47 million is available to fund up to eight awards ranging up to \$1 million.

LINKS: [Grants.gov](#); [Solicitation](#)

---

#### BJA FY25 Postconviction Testing of DNA Evidence

Notice seeking applications in defraying the costs associated with postconviction case review, evidence location, and DNA testing in violent felony cases (as defined by state law) where the results of such testing might show actual innocence.

Applications are due October 10, 2025 for Grants.gov and October 17, 2025 for JustGrants. An estimated \$8.83 million is available to fund 14 awards ranging up to \$1 million.

LINKS: [Grants.gov](#); [Solicitation](#)

---

#### OJJDP FY25 Enhancing Juvenile Indigent Defense

Notice seeking applications to support local implementation of juvenile indigent defense practices and services that strengthen and improve the representation of youth involved in the juvenile justice system. This program will address barriers and gaps within the juvenile justice system for indigent youth to reduce reoffending and decrease recidivism.

Applications are due October 23, 2025 for Grants.gov and October 30, 2025 for JustGrants. An estimated \$1.6 million is available to fund up to four awards ranging up to \$400,000.

LINKS: [Grants.gov](#); [Solicitation](#)

---

#### OJJDP FY25 Mentoring for Youth Affected by Opioid and Other Substance Use

Notice seeking applications that supports the implementation and delivery of high-quality mentoring services for youth who are currently using or dependent on substances, as well as youth at risk of substance use or who have close family members experiencing substance use or dependency.

Applications are due October 23, 2025 for Grants.gov and October 30, 2025 for JustGrants. An estimated \$15.1 million is available to fund 13 awards.

LINKS: [Grants.gov](#); [Solicitation](#)

---

#### OJJDP FY25 Reducing Recidivism for Female Juvenile Delinquents

Notice seeking applications to support the development, enhancement, or expansion of intervention programs for female juvenile delinquents. Funding will be used to develop and implement direct service programs for female juvenile delinquents to reduce reoffending or enhance or expand existing programs to meet their specific needs.

Applications are due October 27, 2025 for Grants.gov and November 3, 2025 for JustGrants. An estimated \$3.76 million is available to fund up to seven awards ranging up to \$525,000.

LINKS: [Grants.gov](#); [Solicitation](#)

## HEALTH and MENTAL HEALTH

### OREF Mentored Clinician Scientist Grant

Notice seeking applications to promote the development of new clinician scientists who have demonstrated success as both a clinician and a researcher. The Mentored Clinician Scientist Grant program allows investigators to spend dedicated time in research for a period of up to five years to develop a long and productive career in academic surgery.

Applications are due October 14, 2025. Grants of up to \$20,000 is available. Eligibility is limited to applicants who must demonstrate success in research by receiving extramural research funding under one or more K08 or K23 awards from the National Institutes of Health (NIH), or an equivalent funding source.

LINKS: [Agency Site](#)

---

### Advancing Research on the Application of Digital Health Technology to the Management of Type 2 Diabetes (R01- Clinical Trail Required)

Notice seeking applications designed to examine the efficacy of digital health technology approaches to the management of diabetes.

Applications are due November 7, 2025 and October 6, 2026. An estimated \$1.5 million is available in 2026.

LINKS: [Grants.gov](#); [Solicitation](#)

---

### American Association of Critical-Care Nurses Impact Research Grants

Notice seeking applications to address gaps in high-acuity and critical care areas of clinical research.

Applications are due October 24, 2025. Each accepted proposal may be funded for \$50,000.

LINKS: [Agency Site](#)

---

### BRAIN Initiative: Theories, Models and Methods for Analysis of Complex Data from the Brain (R01 Clinical Trial Not Allowed)

Notice seeking applications to support the development of computational tools for understanding dynamic brain circuits that are made broadly accessible to the greater research community. This program supports applications focused on tool building and dissemination in the domain of theories about neural circuit mechanisms, models of circuit structure and function, and/or computational methods of analysis spanning across scales from neurons to behavior. The development of novel theories, computational models and methods for understanding brain function will help characterize fundamental principles of brain function and organization, characterize cellular and circuit-level neural computations over time in different regions, and understand how interactions of multiple brain circuits enable flexible behaviors and contribute to brain-wide neural dynamics. These tools will be critical for developing treatments such as closed loop systems for brain disorders including Parkinson's disease and major depressive disorder.

Applications are due October 28, 2025; October 6, 2026; and October 6, 2027. Award amounts range from \$150,000 to \$350,000 per year for up to three years. Up to 15 awards are anticipated each year.

LINKS: [Grants.gov](#); [Solicitation](#)

---

### Community-Partnered Nursing Research Centers (P20 Clinical Trial Optional)

Notice seeking applications to support the development of innovative research centers to foster nursing-led programs that promote community-partnered research to address persistent health challenges.

Applications are due annually on January 25.

LINKS: [Grants.gov](#); [Solicitation](#)

---

#### National Glaucoma Research Grants

Notice seeking proposals for research funds for U.S. domestic and international researchers pursuing pioneering research leading to greater understanding, prevention, and treatment of glaucoma. Funding is primarily for researchers who have already generated some amount of preliminary data, but are often required to demonstrate additional, significant progress before they can apply to governmental or industrial funding agencies. Postdoctoral fellows are eligible to apply as co-principal investigator for the standard award.

Proposals are due October 30, 2025. Awards up to \$150,000 over two years.

LINKS: [Solicitation](#); [Agency Site](#)

---

#### NIDCD Clinical Research Center Grant (P50 Clinical Trial Optional)

Notice seeking applications designed to advance the diagnosis, prevention, treatment, and amelioration of human sensory and communication disorders. For this announcement, Clinical Research is defined as research involving individuals with a sensory and/or communication disorder, or data/tissues from individuals with a sensory and/or communication disorder.

Applications are due November 4, 2025, February 2, 2026, and June 2, 2026. Program expires June 3, 2028.

LINKS: [Grants.gov](#); [Solicitation](#)

---

#### Optimizing Treatment Strategies for Adult Attention-Deficit Hyperactivity Disorder (ADHD) (R01 Clinical Trial Required)

Notice seeking applications that support the development of evidence-based treatment approaches for adult Attention-Deficit Hyperactivity Disorder (ADHD) that go beyond stimulant medications, utilizing nonstimulant medications, psychosocial interventions, and device-based treatments, sequentially or in combination, in situations where stimulant monotherapy is insufficiently effective, difficult to tolerate, or undesirable.

Applications are due November 25, 2025. An estimated \$3 million is available to fund up to four awards.

LINKS: [Grants.gov](#); [Solicitation](#)

---

#### Rural Health Transformation Program

Notice seeking applications to support rural communities across America in improving healthcare access, quality, and outcomes by transforming the healthcare delivery ecosystem.

Applications are due November 5, 2025. An estimated \$50 billion is available to fund up to 50 awards. Colleges and universities are eligible to partner.

LINKS: [Grants.gov](#)

## SCIENCE, TECHNOLOGY, ENGINEERING, and MATHEMATICS

### Division of Physics: Investigator-Initiated Research Projects

Notice seeking proposals to support physics research and the preparation of future scientists in the nation's colleges and universities across a broad range of physics disciplines that span scales of space and time from the largest to the smallest and the oldest to the youngest. This solicitation covers a wide range of program topics in the subfield of physics including Gravitational Physics, Nuclear Physics, and many more.

Proposal due dates vary by program. An estimated \$120 million is available for up to 300 awards. The Division of Physics strongly encourages single proposal submission for possible co-review rather than submission of multiple related proposals to several programs.

LINKS: [Grants.gov](#); [Solicitation](#)

---

### FreeSol Broad Agency Announcement

Notice seeking innovative technical approach concept papers addressing space and cyber technologies, to enable capabilities to counter emerging space threats. Proposals need not be limited solely to provided examples, but do need to trace to one of the overarching five topics: 1) resiliency technologies and techniques that increase survivability of space systems; 2) improvements to Space Domain Awareness that enhance the knowledge of space objects, status, activities, threats, and environment to enable courses of action; 3) innovative abilities to exploit space to its advantage for defensive and offensive counterspace to protect friendly space-related capabilities from attack; 4) efficiencies that promote Battle Management Command Control and Communications; and 5) methods for advancing exercises, tests, and training environment.

Concept papers are accepted on a rolling basis until February 23, 2029. Full proposals are by invitation only. Multiple awards are anticipated.

LINKS: [Contract Opportunities](#)

---

### High Mach Gas Turbine (HMGT) Engine Design Study

Notice seeking proposals to conduct conceptual and preliminary design efforts along with subsystem/component testing. The initial design study includes identifying the HMGT engine architecture, the engine core, required subsystem technologies, and building a technology roadmap to mature each subsystem component technology and the overall engine design. Later efforts in Phase I are anticipated to include preliminary design and database development compatible with aircraft conceptual design needs, as well as building and testing advanced components.

Required abstracts are due October 15, 2025. Multiple awards are anticipated.

LINKS: [Contract Opportunities](#)

---

### Medics Autonomously Stopping Hemorrhage (MASH)

Notice seeking proposals to develop demonstrator autonomous systems to stabilize torso hemorrhage without the need of a surgeon in forward medical sites, providing 48+ hours to reach definitive care. The Medics Autonomously Stopping Hemorrhage (MASH) program is seeking approaches that merge multi-modal automated bleed detection and localization with automated, minimally invasive robotic end effectors and sensors. MASH's vision is to push the standard of pre-hospital hemorrhage control to 48 hours; stop lethal forms of torso hemorrhage without a surgeon; and provide minimally invasive surgery a path to enter the trauma market and utilize full autonomy.

Required abstracts are due October 15, 2025. Proposals are due November 25, 2025. An estimated \$32 million is available. Multiple awards are anticipated.

LINKS: [Contract Opportunities](#); [Agency Site](#)

---

Quadratec 'Energize the Environment' Grant program

Notice seeking applications from an individual or group currently working on a program or initiative designed to benefit the environment in their community.

Applications are due October 30, 2025. Awards are up to \$3,500.

LINKS: [Agency Site](#)
