

ARTS, HUMANITIES, and INTERNATIONAL

Luce ACLS Collaborative Grant in China Studies

Notice seeking letters of intent to prioritize international and cross-institutional partnerships, support under-resourced institutions, and strengthen the next generation of China scholars. The collaborative grant will serve to test and refine promising solutions; to produce recommendations for those activities to be adopted at scale in universities and colleges; and to establish clear strategies for long-term sustainability.

Required letters of intent are due April 1, 2025. The grant amount will be \$150,000 (approximately \$25,000 per group member for up to six members). Eligibility is limited to groups comprised of six members, with the project's principal investigator having a PhD in the humanities or interpretive social sciences or equivalent and be based at an institution in the U.S. or Canada. Project teams must also represent more than one institution.

National Council on the Arts 215th Meeting

Notice announcing a meeting of the National Council on the Arts will be held open to the public by videoconference to discuss general agency business.

The open session of the meeting will be held via videoconference on March 28, 2025 from 2:00 p.m. to 3:00 p.m.

Creative Capital Awards and State of the Art Prize

Notice seeking applications from individual artists with unrestricted project grants for the creation of bold, innovative, original, and imaginative new artistic works in visual arts, performing arts, film, and literature. Multidisciplinary, technology, and/or socially engaged projects are welcome in all disciplinary categories. The State of the Art Prize aims to recognize and support one artist from every U.S. state and inhabited territory with an unrestricted artist grant of \$10,000.

Applications are due April 3, 2025. Creative Capital Awards will be available for up to \$50,000. State of the Art prizes will be up to \$10,000 for one individual in each state.

Visiting Fellowship

Notice seeking applications to pursue a creative project in Paris for a month or longer while participating actively in the life of the American Library.

Applications are due April 1, 2025. A \$5,000 stipend will be paid prior to the Fellowship period to cover travel, accommodation, and expenses in Paris.

EDUCATION and ECONOMIC & COMMUNITY DEVELOPMENT

Fred C. Gloeckner Foundation Research Fund

Notice seeking applications for research and educational projects in floriculture. Eligible proposals include those addressing critical topics in floriculture related to plant pathology, plant breeding, agricultural economics, agricultural engineering, entomology, and plant physiology.

Applications are due April 1, 2025.

LINKS: [American Floral Endowment](#); [Solicitation](#)

Eligibility Designations and Applications for Waiving Eligibility Requirements; Programs Under Parts A and F of Title III and Programs Under Title V of the Higher Education Act of 1965, as Amended (HEA)

Notice announcing the process for the designation of eligible institutions and is seeking applications for several programs. Programs authorized include minority serving institutions and institutions with disadvantaged and low-income students.

Applications are due April 7, 2025.

LINKS: [Federal Register](#)

Withdrawal of Notice Inviting Applications (NIA) and Cancellation of the Competition for the Supporting Effective Educator Development (SEED) Program

Notice announcing the withdrawal of the NIA and the cancellation of the FY 2025 competition for the Supporting Effective Educator Development (SEED) Program (Assistance Listing Number: 84.423A). NIA was originally published on the Federal Register on January 17, 2025.

HEALTH and MENTAL HEALTH

Pediatric Cancer Research multiple opportunities

Notice seeking applications for three programs. The Emerging Investigator Fellowship supports post-doctoral fellowships and clinical investigator training for emerging researchers. The Translational Research program supports single or multi-institutional efforts that involve open, cancer clinical trials and implement new approaches to therapy. Legacy Researcher Grants support translational or basic research.

Required letters of intent are due April 1, 2025. Invited proposals are due July 1, 2025. Awards range by program.

LINKS: [Pediatric Cancer Research Foundation](#)

Bridge Funding Award

Notice seeking applications designed to stabilize research programs of promising physician scientists in obstetrics and gynecology who have not been successful in obtaining independent research funding or who have a temporary lapse in funding.

Applications are due April 1, 2025. Each award will be for up to \$75,000 for one year from July 1, 2025 to June 30 2026. Eligibility is limited to investigators who have been awarded an M.D. (or D.O.) and are at the rank of assistant professor of Obstetrics and Gynecology or above, who have successfully completed a mentored research award or have previously had an R grant and who have applied for funding but who have not been successful in either obtaining or maintaining independent research funding.

LINKS: [Solicitation](#); [American Association of Obstetricians and Gynecologists Foundation](#)

End-of-life-care Research

Notice seeking applications to encourage qualified nurses to contribute to the advancement of nursing care through research. Proposals for pilot and/or developmental research may be submitted for the grant.

Applications are due April 1, 2025. Funding will be up to \$10,000. Eligibility is limited to registered nurses with a current license and hold a master's or doctoral degree or be enrolled in a doctoral program.

LINKS: [Solicitation](#); [Sigma Theta Tau International Honor Society of Nursing](#)

FamilieSCN2A Foundation Action Potential Grant program

Notice seeking applications for early career investigators who propose innovative projects that will advance development of therapeutic treatments for SCN2A-related disorders (SRDs). The program is designed to facilitate future funding from government, industry, and other funding sources.

Required letters of intent are due April 1, 2025. Grants will provide up to \$75,000 in funding for grantees. Eligibility is limited to postdoctoral fellow, clinical residents specializing in any area applicable to SRDs, newly appointed faculty members within 1-3 years of having been appointed to their first tenure-track faculty position.

LINKS: [Solicitation](#); [The FamilieSCN2A Foundation](#)

International Center for Responsible Gaming - Large Grants Program

Notice seeking letters of intent for gambling research. The program aims to help individuals and families affected by gambling disorder and prevent the onset of gambling problems through high-quality research and evidence-based educational programming on gambling disorder and responsible gambling.

Required letters of intent are due April 4, 2025. Proposals are due July 18, 2025 by invitation only. Awards up to \$75,000 each year for up to two years plus up to 25% for indirect costs.

Peanut Nutrition Grant Program

Notice seeking research proposals to enhance the understanding of peanut consumption affects health in various populations. Two opportunities are available: 1) General research- to increase the understanding of how the consumption of peanuts, peanut butter, peanut oil, peanut powder, and other peanut products affect human health; 2) Brain Health Research - to increase the understanding of the effects of peanut consumption on brain health.

Proposals are due April 1, 2025. Award amount varies depending on topic area, with amounts ranging from \$50,000 to \$650,000.

LINKS: [Solicitation](#); [Peanut Institute](#)

Short Courses on Innovative Methodologies and Approaches in the Behavioral and Social Sciences (R25 Clinical Trials Not Allowed)

Notice seeking applications to support educational activities that complement and/or enhance the training of a workforce to meet the nation's biomedical, behavioral and clinical research needs.

Applications are due April 9, 2025. An estimated \$1 million is available to fund three to four awards.

LINKS: [Grants.gov](#); [Solicitation](#)

Visiting Scholar Education Grants

Notice seeking applications to advance the specialty of periodontology and dental implant surgery through advocacy, research, and education.

Applications are due April 1, 2025. The grants must be matched by funds from each department or institution.

LINKS: [Solicitation](#); [American Academy of Periodontology Foundation](#)

SCIENCE, TECHNOLOGY, ENGINEERING, and MATHEMATICS

Broad Agency Announcement: Research and Development for Air Force Airbase Systems

Notice seeking white papers for research proposals including advanced technology development and advanced component development and prototypes. The specific research area is in per-and polyfluoroalkyl substances (PFAS) destruction.

White papers are due April 21, 2025.

LINKS: [Contract Opportunities](#)

Fiscal Year (FY) 2026 Department of Defense Multidisciplinary Research Program of the University Research Initiative (MURI)

Notice seeking white papers to propose high-risk basic research and attempts to understand or achieve something that has never been done before. A complete list of prioritized topical areas for research can be found in section one of the announcement.

White papers are due May 2, 2025, though not required, they are strongly encouraged. Proposals are due September 5, 2025. Multiple awards are anticipated.

LINKS: [Grants.gov \(ONR\)](#); [Grants.gov \(Army\)](#); [Grants.gov \(AFOSR\)](#)

Science and Technology Broad Agency Announcement

Notice seeking proposals for new and innovative R&D solutions related to the undersea technology subject areas. The BAA is comprised of twenty-seven (27) Undersea Technology Subject Areas.

Optional white papers and Proposals will be accepted until March 3, 2030.

LINKS: [Contract Opportunities](#)

Simons Dissertation Fellowships in Mathematics

Notice seeking applications for the new Simons Dissertation Fellowship in Mathematics to provide research support to excellent graduate students in the final years of their Ph.D. studies.

Applications are due March 31, 2025. Awards are up to \$38,400. Up to 40 dissertation fellowships are anticipated for 2025.

LINKS: [Simons Foundation](#); [Solicitation](#)

The Right Space

Notice seeking proposals for innovative basic or applied research concepts in the technical domain of mathematical methods to systematically discover useful mathematical transformations: transformations of a system's variables and parameters to representations that make solving complex modeling problems easier, faster, and potentially more interpretable.

Proposals due May 2, 2025. Maximum award amount for phase one and two combined is \$1.25 million.

LINKS: [Contract Opportunities](#)

2025 ERDC Broad Agency Announcement

Notice seeking proposals to conduct research in a broad range of fields: hydraulics, dredging, coastal engineering, instrumentation, oceanography, remote sensing, geotechnical engineering, earthquake engineering, soil effects, vehicle mobility, self-contained munitions, military engineering, geophysics, pavements, protective structures, aquatic plants, water quality, dredged material, treatment of hazardous waste, wetlands, physical/mechanical/ chemical properties of snow and other frozen precipitation, infrastructure and environmental issues for installations, computer science, telecommunications management, energy, facilities maintenance, materials and structures, engineering processes, environmental processes, land and heritage conservation, and ecological processes.

Pre-applications are accepted on a rolling basis until December 31, 2025. Multiple awards of varying amounts are available.

LINKS: [Contract Opportunities](#); [Solicitation](#)

Chemistries and monoLayers for Anti-aging Kinematics (CLOAK)

Notice seeking proposals that provide innovative basic or applied research concepts in the technical domain of novel micromechanical oscillators for applications toward precision positioning and navigation systems.

Proposals are due April 14, 2025. The total award value for the combined Phase 1 base (Proof-of-concept) and Phase 2 option (Prototype) is limited to \$1,200,000. The Phase 1 (base) award value is limited to \$500,000. The Phase 2 (option) award value is limited to \$700,000.

LINKS: [Contract Opportunities](#)

Fundamental Aerodynamics for Large Wind Turbine Performance and Reliability

Notice seeking proposals with three goals: collect and disseminate benchmark airfoil aerodynamic data to validate and improve the tools/models that assure the performance of next-generation wind turbine blades, provide data to validate modeling and simulation tools to predict the behavior of nonoperational wind turbine rotors, e.g., when they are stopped for installation, maintenance, or idling (during the passage of extreme weather), inform the wind industry with physical insights that advance modeling capabilities to minimize the risks and costs of next-generation wind turbines.

Proposals are due April 4, 2025. There are two topic areas. Topic Area 1 has a maximum budget of \$4.75 million and Topic Area 2 has a maximum budget of \$1.5 million.

LINKS: [Contract Opportunities](#)

Air Force Research Lab, Autonomy Industry Day, Dayton OH

Notice announcing an Industry Day event with industry partners invested in technologies related to autonomy software. The objective is to align the government-industry community by (a) gathering situational awareness on industry's readiness to help AFRL develop, prototype, and transition autonomy technologies in the current or next epochs and (b) informing and guiding IR&D and other investments to align with DAF and DoD needs.

The event will be held during of week of May 5-9, 2025 hosted by the Air Force Research Laboratory in Dayton, Ohio. Registration instructions will be released in the coming weeks.

LINKS: [Contract Opportunities](#)

Artificial Intelligence (AI) for financial reporting and audit processes

Notice seeking solutions briefs for leveraging artificial intelligence (AI) to enhance the efficiency and accuracy of its financial reporting and audit processes. The purpose of this call to industry is to attract and identify best-of-breed solutions to address the problem set and meet operational capabilities.

Solutions Briefs are due April 10, 2025.

LINKS: [Contract Opportunities](#)

Securing Artificial Intelligence for Battlefield Effective Robustness (SABER)

Notice seeking proposals to develop an operational AI red teaming construct and framework for OT&E of AI-enabled battlefield systems. This team will assess the operational impacts of vulnerabilities unique to the use of AI, with a focus on the evaluation of near-term AI-enabled autonomous ground and air (rotary wing) capabilities.

Abstracts are strongly encouraged and due March 31, 2025. Proposals are due May 6, 2025. Multiple awards are anticipated.
