H+H Stone Fellowship

Notice seeking applications from string instrumentalists to foster the artistic development of early-career musicians whose socio-cultural identities have been historically underrepresented in the field. For the 2025-27 Fellowship, H+H is recruiting nationally for up to two string instrumentalists (violin, viola, cello, or bass) selected through a competitive audition process. The Fellowship provides an unparalleled two-year learning experience including training, performance, and mentorship with H+H as well as career counseling and additional artistic opportunities in partnership with the New England Conservatory (NEC).

Applications are due April 3, 2025. Compensation of \$264.42 per service for all rehearsals and performances with H+H is available with an additional per diem of \$92 plus accommodations and travel. Applicants must have a bachelor's degree and be eligible for employment in the United States.

EDUCATION and ECONOMIC & COMMUNITY DEVELOPMENT

Capacity Building Grants

Notice seeking applications to support an organization's focus on internal effectiveness and long-term stability. Grants will be awarded to charities that demonstrate a specific capacity gap and prioritize college access and completion, workforce and career development, and entrepreneurship and focus areas of essential competencies and skills, education and employer connection, participation and belonging, and equitable access.

Applications are due April 4, 2025. These one-time, short-term grants have a funding amount of \$100,000 to \$250,000.

Canine Hemangiosarcoma Research

Notice seeking applications or its Hemangiosarcoma Initiative, which aims to catalyze development of new approaches to prevent, detect, and treat canine hemangiosarcoma, which is the most frequently observed cancer diagnosis in the foundation's Golden Retriever Lifetime Study cohort, now representing more than 60 percent of all primary endpoint cancer deaths. Awards will be offered in two categories: Seed Award and Innovation Awards.

Applications are due April 9, 2025. Grants up to \$25,000 are available for Seed Awards. Grants up to \$200,000 are available for Innovation Awards.

HEALTH and MENTAL HEALTH

AACR Ocular Uveal Melanoma Research fellowship

Notice seeking applications to encourage and support a postdoctoral or clinical research fellow to conduct ocular/uveal melanoma research and to establish a successful career path in ophthalmology, ocular oncology, uveal melanoma biology, or a similar field.

Applications are due April 8, 2025. Grant awards are \$130,000 for two years. Eligibility is limited to applicants with a doctoral degree who hold a mentored research position with the title of postdoctoral fellow, clinical research fellow, or an equivalent position.

Scholarships and Pathways in Neuroscience program

Notice seeking applications for the Scholarships and Pathways in Neuroscience program, which promotes diversity in science while offering a unique opportunity in one of the nation's leading neurology and neurosurgery hospitals.

Applications are due April 15, 2025. Scholars will receive an annual salary of up to \$6,000 annually and a sign-on bonus up to \$4,000 to offset the cost of relocating to Los Angeles. Eligibility is limited to third- or fourth-year undergraduates, graduate students, or those currently enrolled in medical school or awaiting acceptance to medical school or a residency program

Supplemental Evidence and Data Request on Improving the Management of Menopausal Symptoms in Perimenopausal and Early Postmenopausal Women: A Systematic Review

Notice seeking data and research. The Evidence-based Practice Centers Program is completing a review, and is dedicated to identifying as many studies as possible that are relevant to the topic questions. The notice requests a list and summary of completed studies as well as ongoing studies being conducted.

Submission of information is requested by April 17, 2025.

SCIENCE, TECHNOLOGY, ENGINEERING, and MATHEMATICS

Bilateral Academic Research Initiative (BARI) Program

Notice seeking proposals that addresses high risk basic research as an international collaboration. This research should attempt to provide the scientific foundation towards the design and development of future and ubiquitous information networks that rely on extreme-scale devices, distributed intelligence, and network complexity, and include cognitive and social concepts to inform the technological choices.

Required white papers are due May 30, 2025 to jeanluc.cambier.civ@mail.mil and ektmfla97@keit.re.kr. An estimated \$6 million is available to fund three to five faculty researchers. One grant is available to lead institution of the US research team.

LINKS: [Grants.gov](https://www.grants.gov)

TraCSS Space Situational Awareness (SSA) Research and Technology Development

Notice seeking white papers that could lead to proposals and funded research to enhance and advance technologies in Space Situational Awareness (SSA) and Space Traffic Coordination (STC).

White papers are due May 30, 2025. Estimated \$9.9 million is available to fund multiple awards.

Microsystems Technology Office (MTO) Spark Tank Special Notice

Notice announcing the MTO Spark Tank event for prospective proposers. The goals of the event are to (1) familiarize participants with MTO's mission, interest areas, and on-going efforts; (2) facilitate discussions with potential proposers; (3) increase the efficiency in proposal preparation and evaluation; and (4) to broaden DARPA's reach with small businesses, educational institutions, and other non-traditional performers to break down barriers of entry for performers new to DARPA and the national security space.

The event will be held in-person on July 24–25, 2025 at the Gaylord Rockies Resort and Convention Center in Aurora, Colorado. Registration will open on April 10, 2025 and potential attendees must register by June 30, 2025.

LINKS: [Contract Opportunities](#)

NASA Ames Partnership Days

Notice announcing NASA's Partnership Days which will focus on showcasing Ames's core competencies, research facilities and engagement in exciting discussions about collaboration opportunities for partnerships with NASA Ames.

This in-person event will take place from April 29, 2025 to May 1, 2025 at the NASA Ames Conference Center in Moffett Field, CA. Registration is required.

LINKS: [Contract Opportunities](#); [Agency Site](#)

Applied Mathematics

Notice seeking proposals that aim to support mathematics research motivated by and contributing to the solution of problems arising in science and engineering.

Proposal window is from November 1, 2025 to November 17, 2025.

LINKS: [Grants.gov](#); [Agency Site](#)

Fire Science Innovations through Research and Education

Notice seeking project proposals focused on convergent research and education activities in wildland fire. All areas of science, engineering, and education supported by the U.S. National Science Foundation are included in this program.

Proposal window is June 12, 2025 to June 20, 2025.

LINKS: [Grants.gov](#); [Agency Site](#)

MIT Solve: Global Economic Prosperity Challenge

Notice seeking applications for solutions to leverage technology to increase prosperity for all. The focus for 2025 will be on solutions that enable universal access to financial services, including tools for banking, insurance, credit, instant payments, and asset ownership; increase digital participation and security, including reliable connectivity and protected online spaces that safeguard civic participation, privacy, and digital identity; and expand workforce development, including skill-based training, employment matching, and career mobility or worker safety and benefits, with an emphasis on underinvested populations.

Applications are due April 17, 2025. Initial grants of \$10,000, with access to a pool of \$1.5 million in prize funding and additional funding opportunities throughout the program.
