Intervention Research to Improve Native American Health (R34 and R01 Clinical Trial Optional)
U.S. Department of Health and Human Services, National Institutes of Health

Notice seeking proposals to support planning and development, including pilot or feasibility research, to improve health in Native American populations. Proposed research may address health promotion, disease prevention, treatment, recovery, or services research to inform intervention implementation and dissemination. Research with Native American populations requires engagement with tribal partners and communities to develop and/or adapt interventions and clinical trial protocols, understand intervention feasibility and acceptability, and identify and/or develop scientifically rigorous and culturally appropriate study designs and methods.

Proposals are due October 21, 2025. Awards may vary.

SCIENCE, TECHNOLOGY, ENGINEERING, and MATHEMATICS

EXPRESS: 2025 Exploratory Research for Extreme-Scale Science
Energy

Notice seeking proposals in basic research to explore potentially high-impact approaches in scientific computing and extreme-scale science.

Required pre-application are due February 25, 2025. An estimated \$16 million is available to fund up to 20 awards.

LINKS: [Grants.gov](#); [Solicitation](#)

Microsystem Induced CAtalysis (MICA)
Defense

Notice seeking innovative proposals for the research and development of advanced concepts for modeling, simulation and fabrication of microsystem-based control of catalytic molecules. Proposed research should

investigate innovative approaches that enable revolutionary advances in science, devices, and systems. Specifically excluded is research that primarily results in evolutionary improvements to the existing state of practice.

Required abstracts are due February 5, 2025. Proposals are due March 20, 2025. Multiple awards are anticipated.

Agency Information Collection Activities: Comment Request; Grantee Reporting Requirements for Partnership for Research and Education in Materials (PREM)
National Science Foundation

Notice seeking public written comments pertaining to the renewal of the Grantee Reporting Requirements for Partnerships for Research and Education in Materials (PREM) collection.

Written comments are due by March 24, 2025.

LINKS: [Federal Register](#); [Agency Site](#)

Request for Comments on the National Science Foundation's Proposed Intellectual Property Options
National Science Foundation

Notice seeking public comments to inform the proposed implementation of new intellectual property (IP) provision options for use in the National Science Foundation public-private partnerships, particularly those advancing research and development, that include co-funding of awards by private partners.

Responses are due February 21, 2025.

LINKS: [Federal Register](#); [Agency Site](#)

Request for Information: Formal Methods to Deliver Resilient Systems (FMDRS)
Defense

Notice seeking information and robust community feedback on a draft DARPA Guide to Formal Methods to Deliver Resilient Systems for Proposals (FMDRS). Responses will be used to inform the use of the FMDRS guide in future DARPA solicitations.

Responses are due February 25, 2025. The contact email has been updated.
