The meeting minutes from 2/26/18 were approved.

Dr. Green asked all committee members notify their respective colleges that Friday, March 9, 2018 is the absolute deadline for proposals to be considered for the 2018-2019 catalog.

Dr. Derstler asked about the minimum requirements for a unique minor or concentration. Per Rajni Soharu, a minor consists of 15% or more of total hours.

Regarding the B.S. Psychology curriculum change, the department cannot make change the BIOS requirement to BIOS or Science. Additionally, Kim Echols recommended that the Math general education requirement be changed to Math 1115 or Math 1125 to avoid applying substitutions. These recommendations will be submitted to the department.
