Discussion Items

1. The quorum voted that “drop requests” and “Fast track” proposals can be voted online. I will create a poll for each proposal on Moodle. All voting members please make sure you vote for each proposal. Only Graduate faculty should vote for graduate proposals.
2. The Add course, Add curriculum and change courses (not fast track), will be voted on in person.
3. The Deans will be copied on all the minutes so that information can be further distributed to others in the colleges.
4. It was noted that the various foreign language fast track forms have too many changes on the fast track. It should have come as an individual course change instead of fast track.
5. Some courses have “offered every semester” as a part of course description. This is redundant information and might create problems if the course I not offered every semester.
